Supplier said Tuesday. It's Friday. ART's on it.

ART (A Realtime Tech) follows up on overdue deliveries.

Your team shouldn't have to chase.

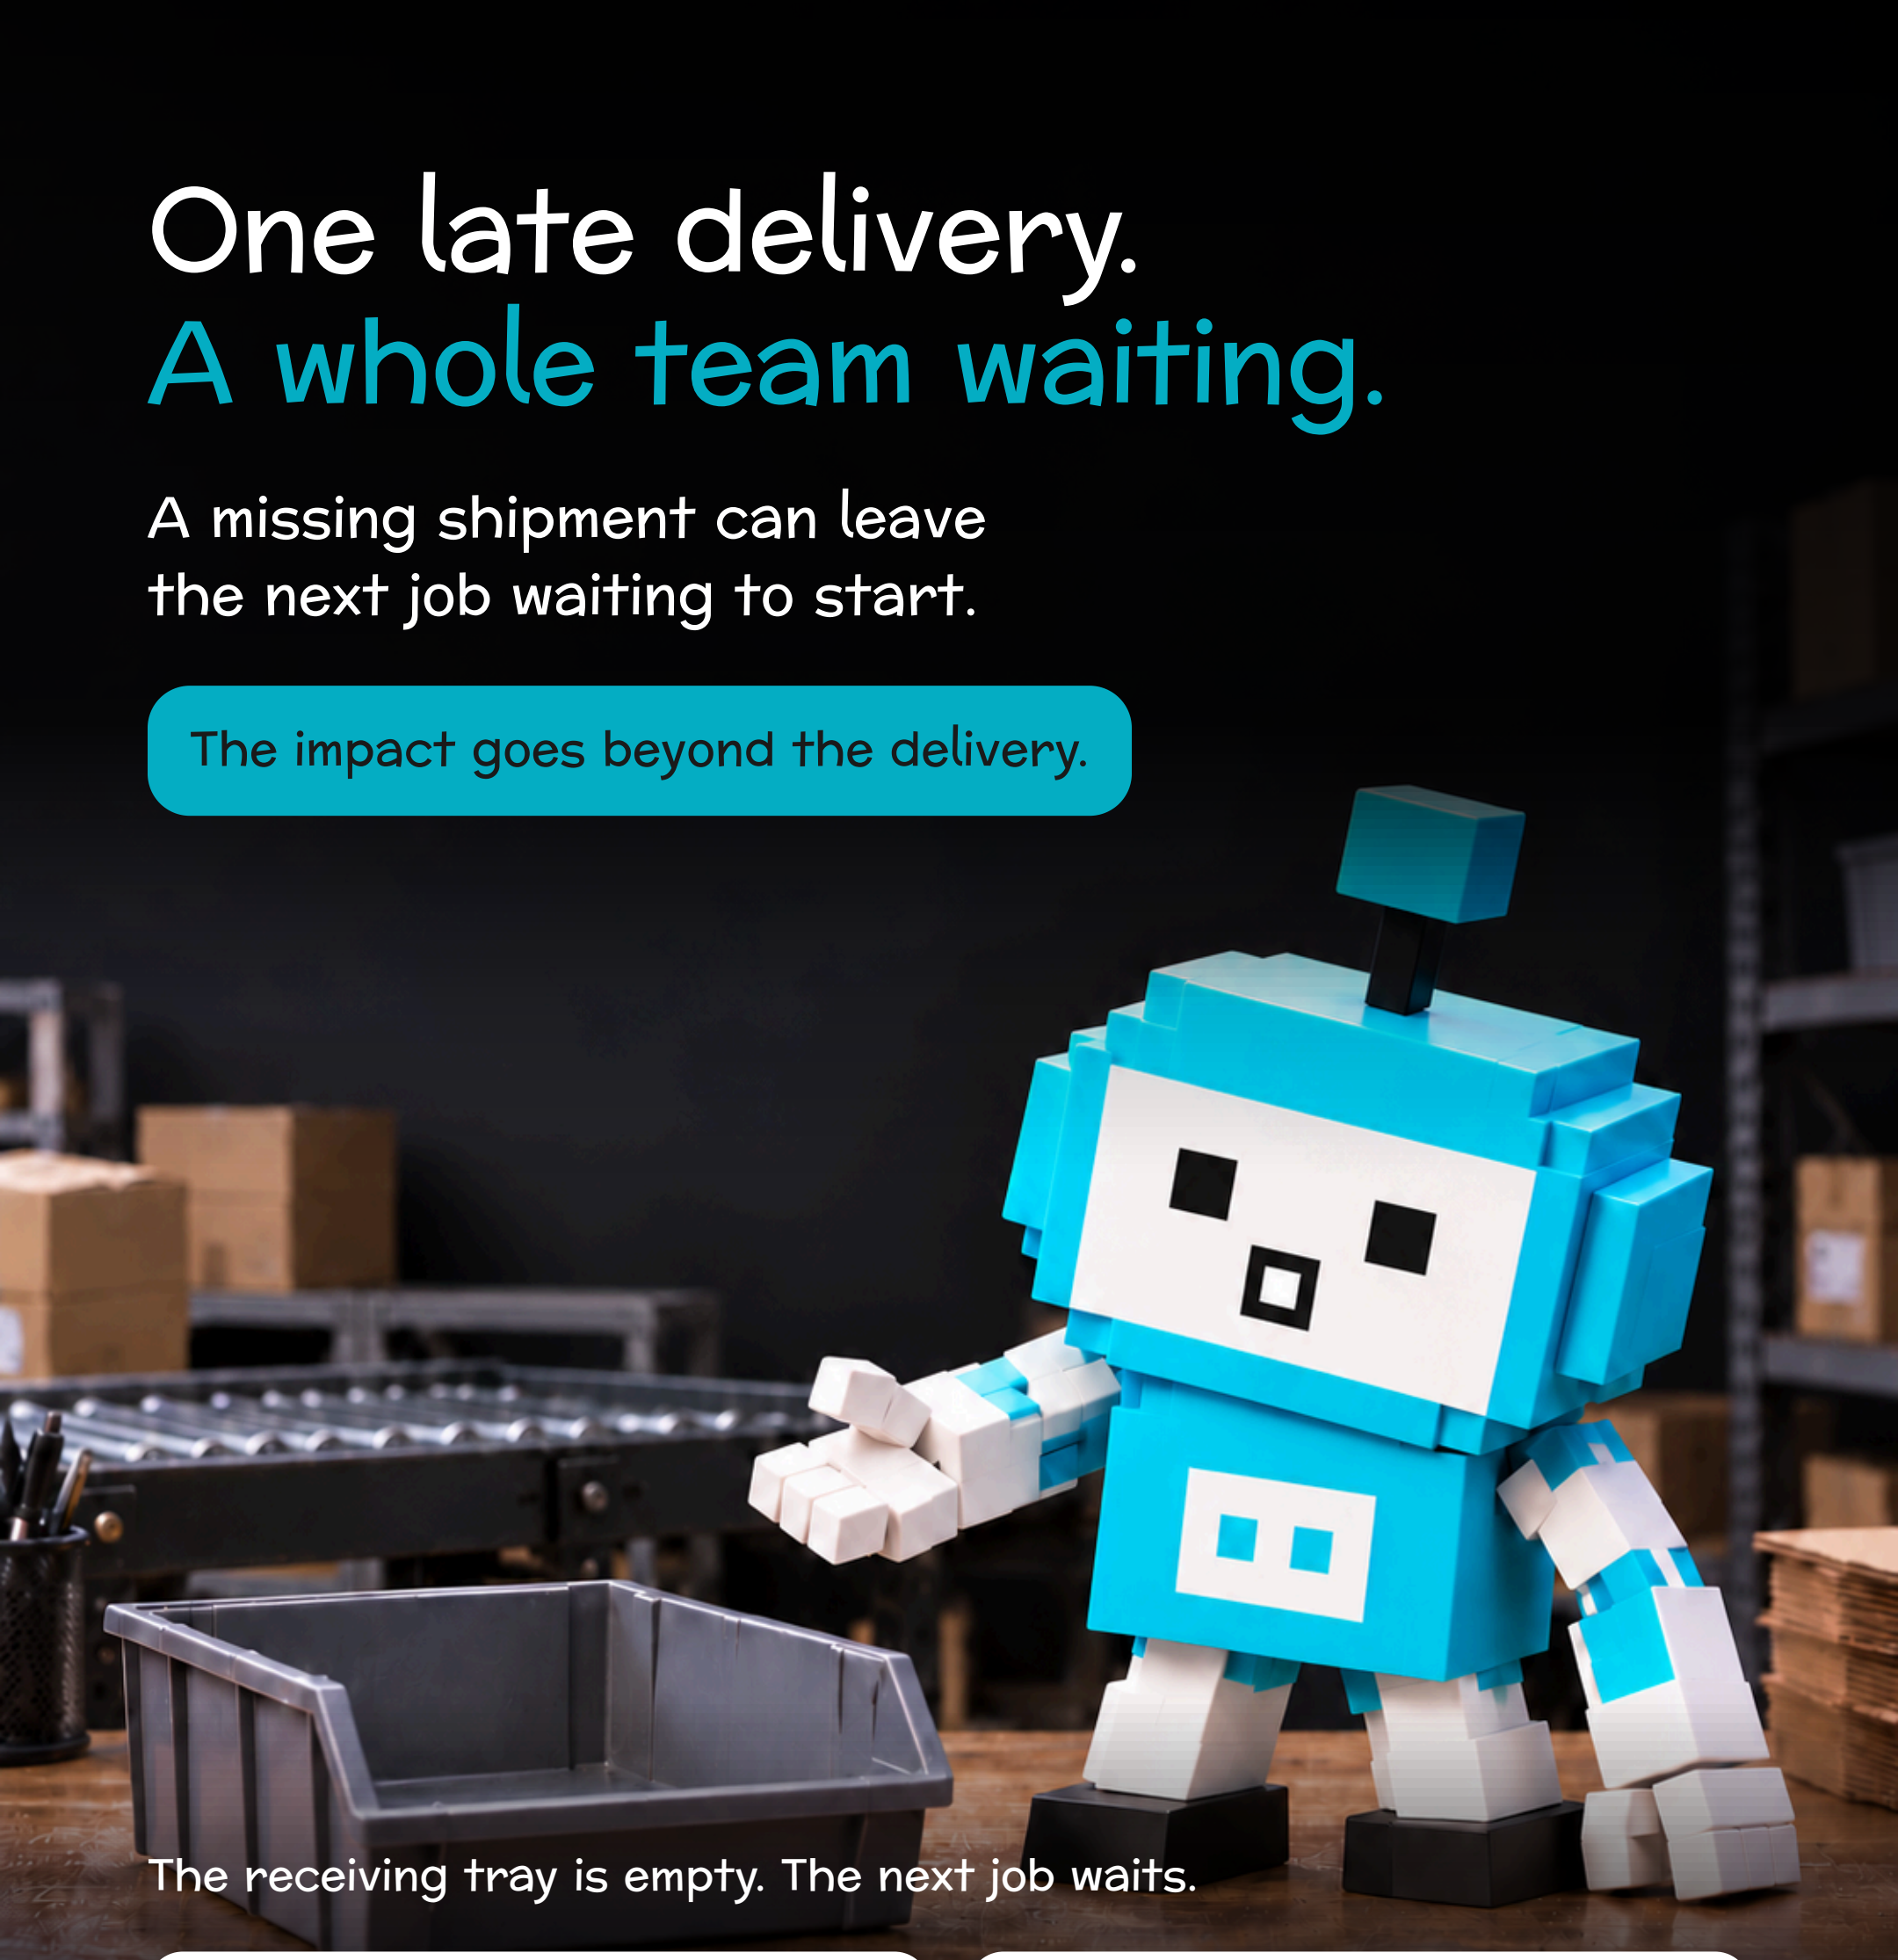

ART follows up while your team gets on with work.

- ✓ ART spots the overdue delivery.
- ✓ ART handles the follow-up.

One late delivery.
A whole team waiting.

A missing shipment can leave
the next job waiting to start.

The impact goes beyond the delivery.

The receiving tray is empty. The next job waits.

- ✓ The shipment is late.
- The next job is waiting.

ART spots what's overdue.

ART checks the promised delivery date against what has actually arrived.

Check what was due against what arrived.

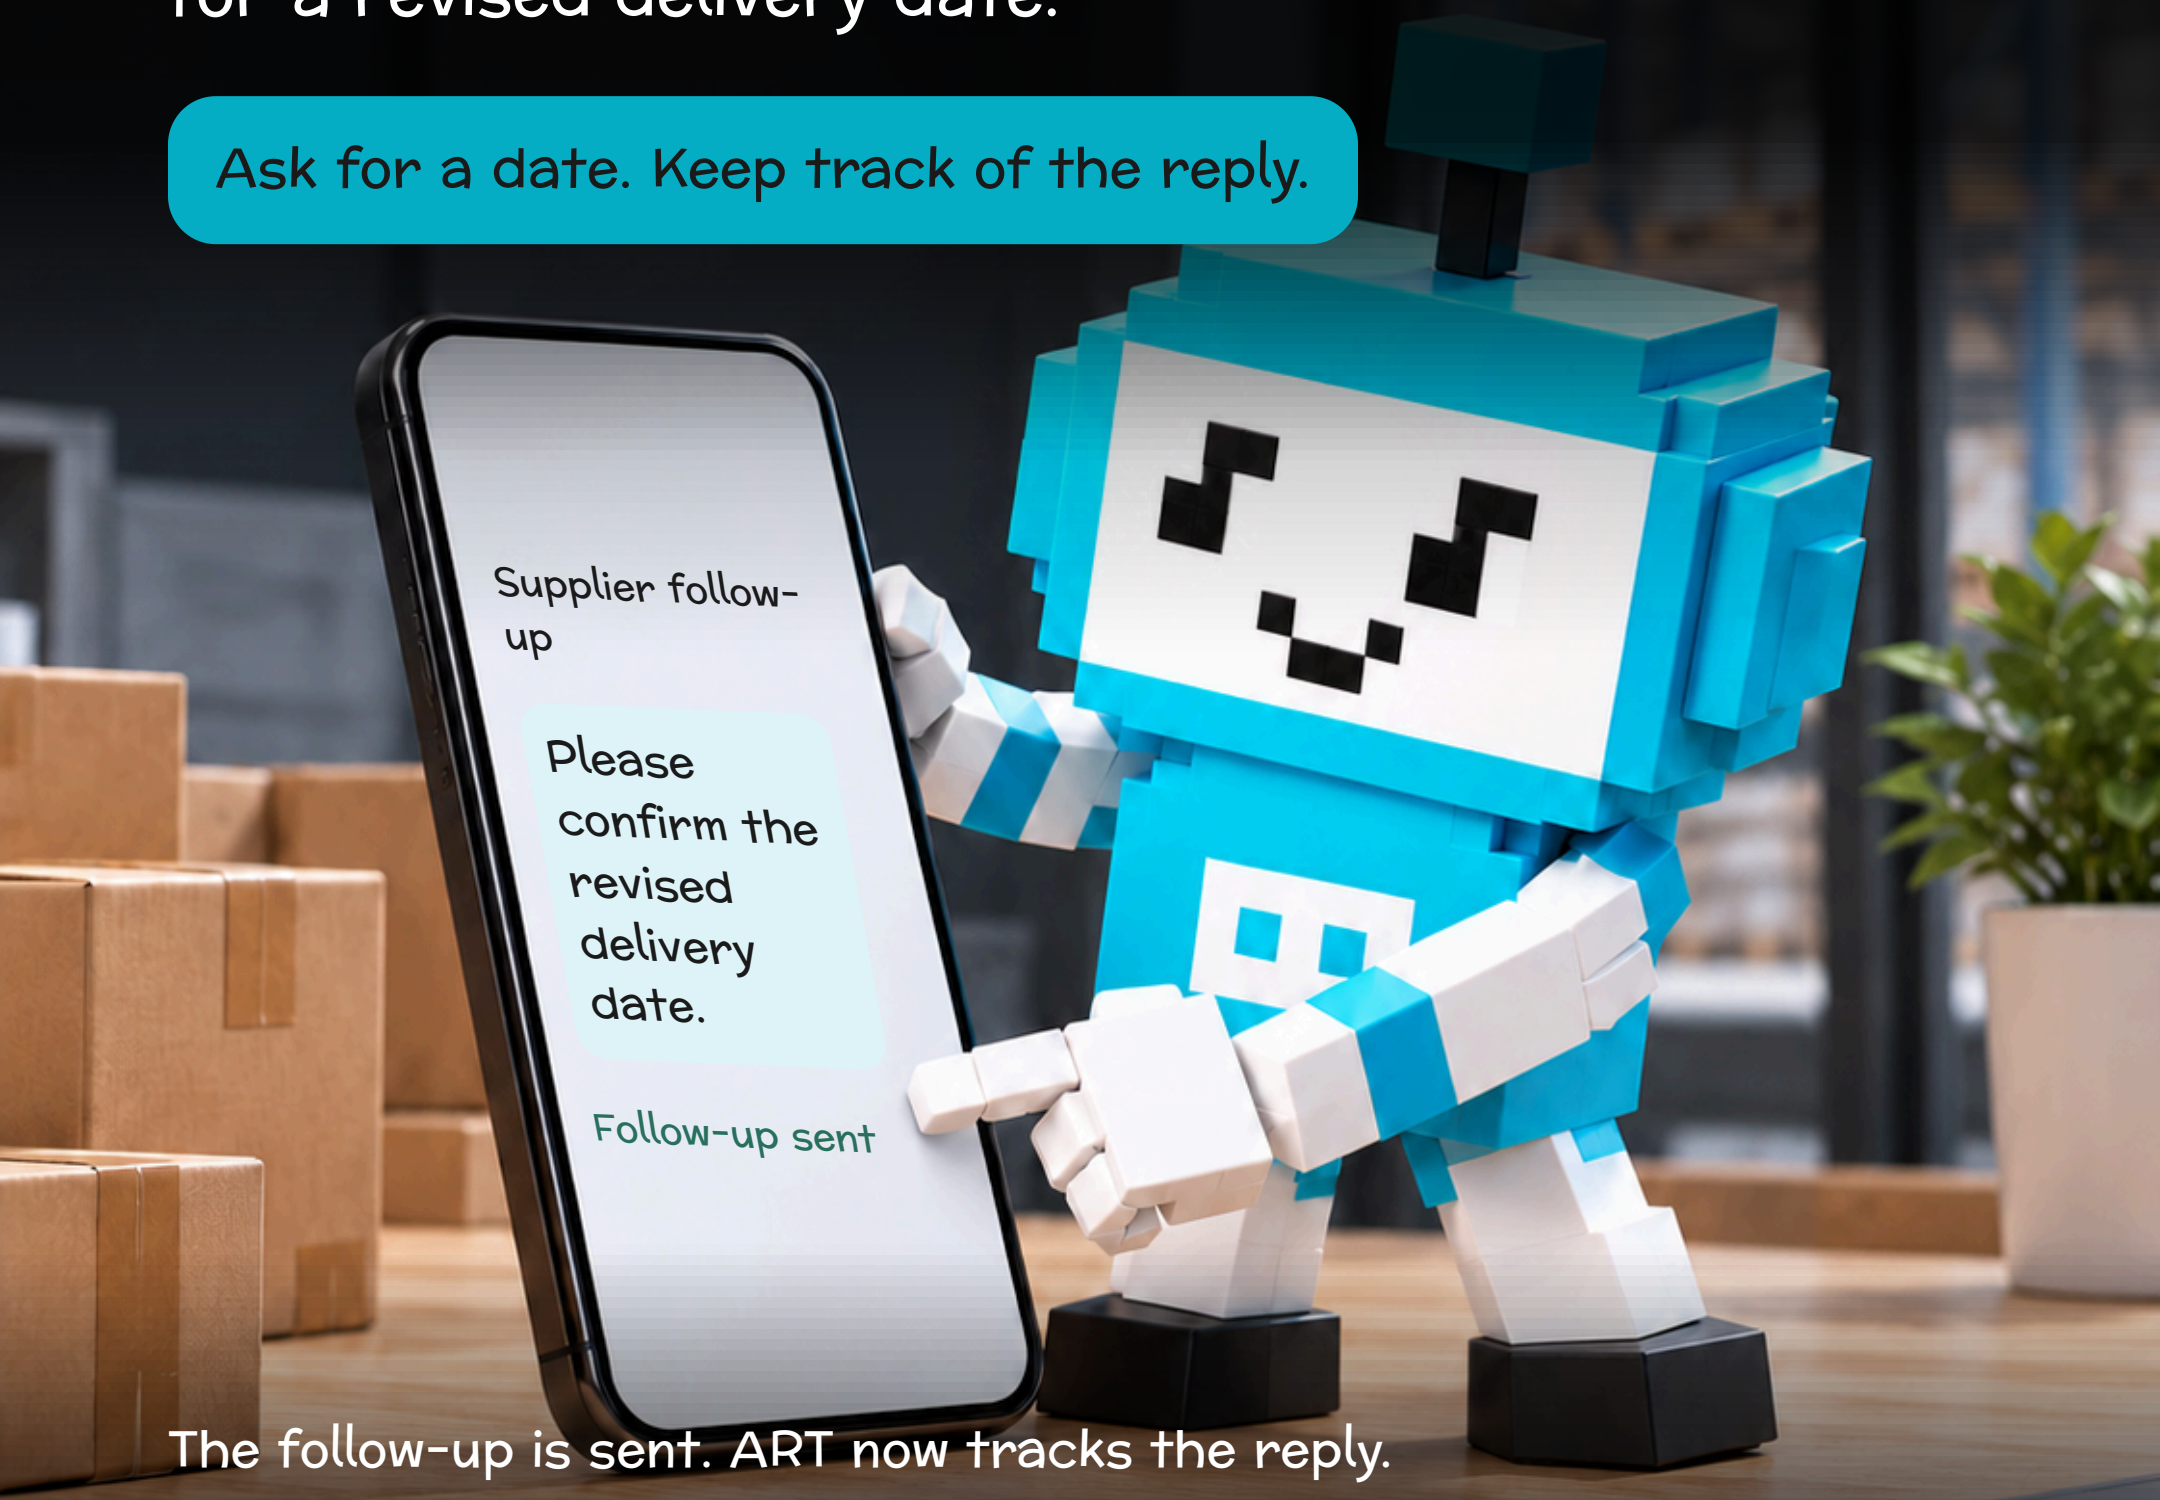

The receiving record shows what is still missing.

- ✓ The delivery date has passed.
- The shipment has not arrived.

"Any update?"
Already sent.

ART asks the supplier
for a revised delivery date.

Ask for a date. Keep track of the reply.

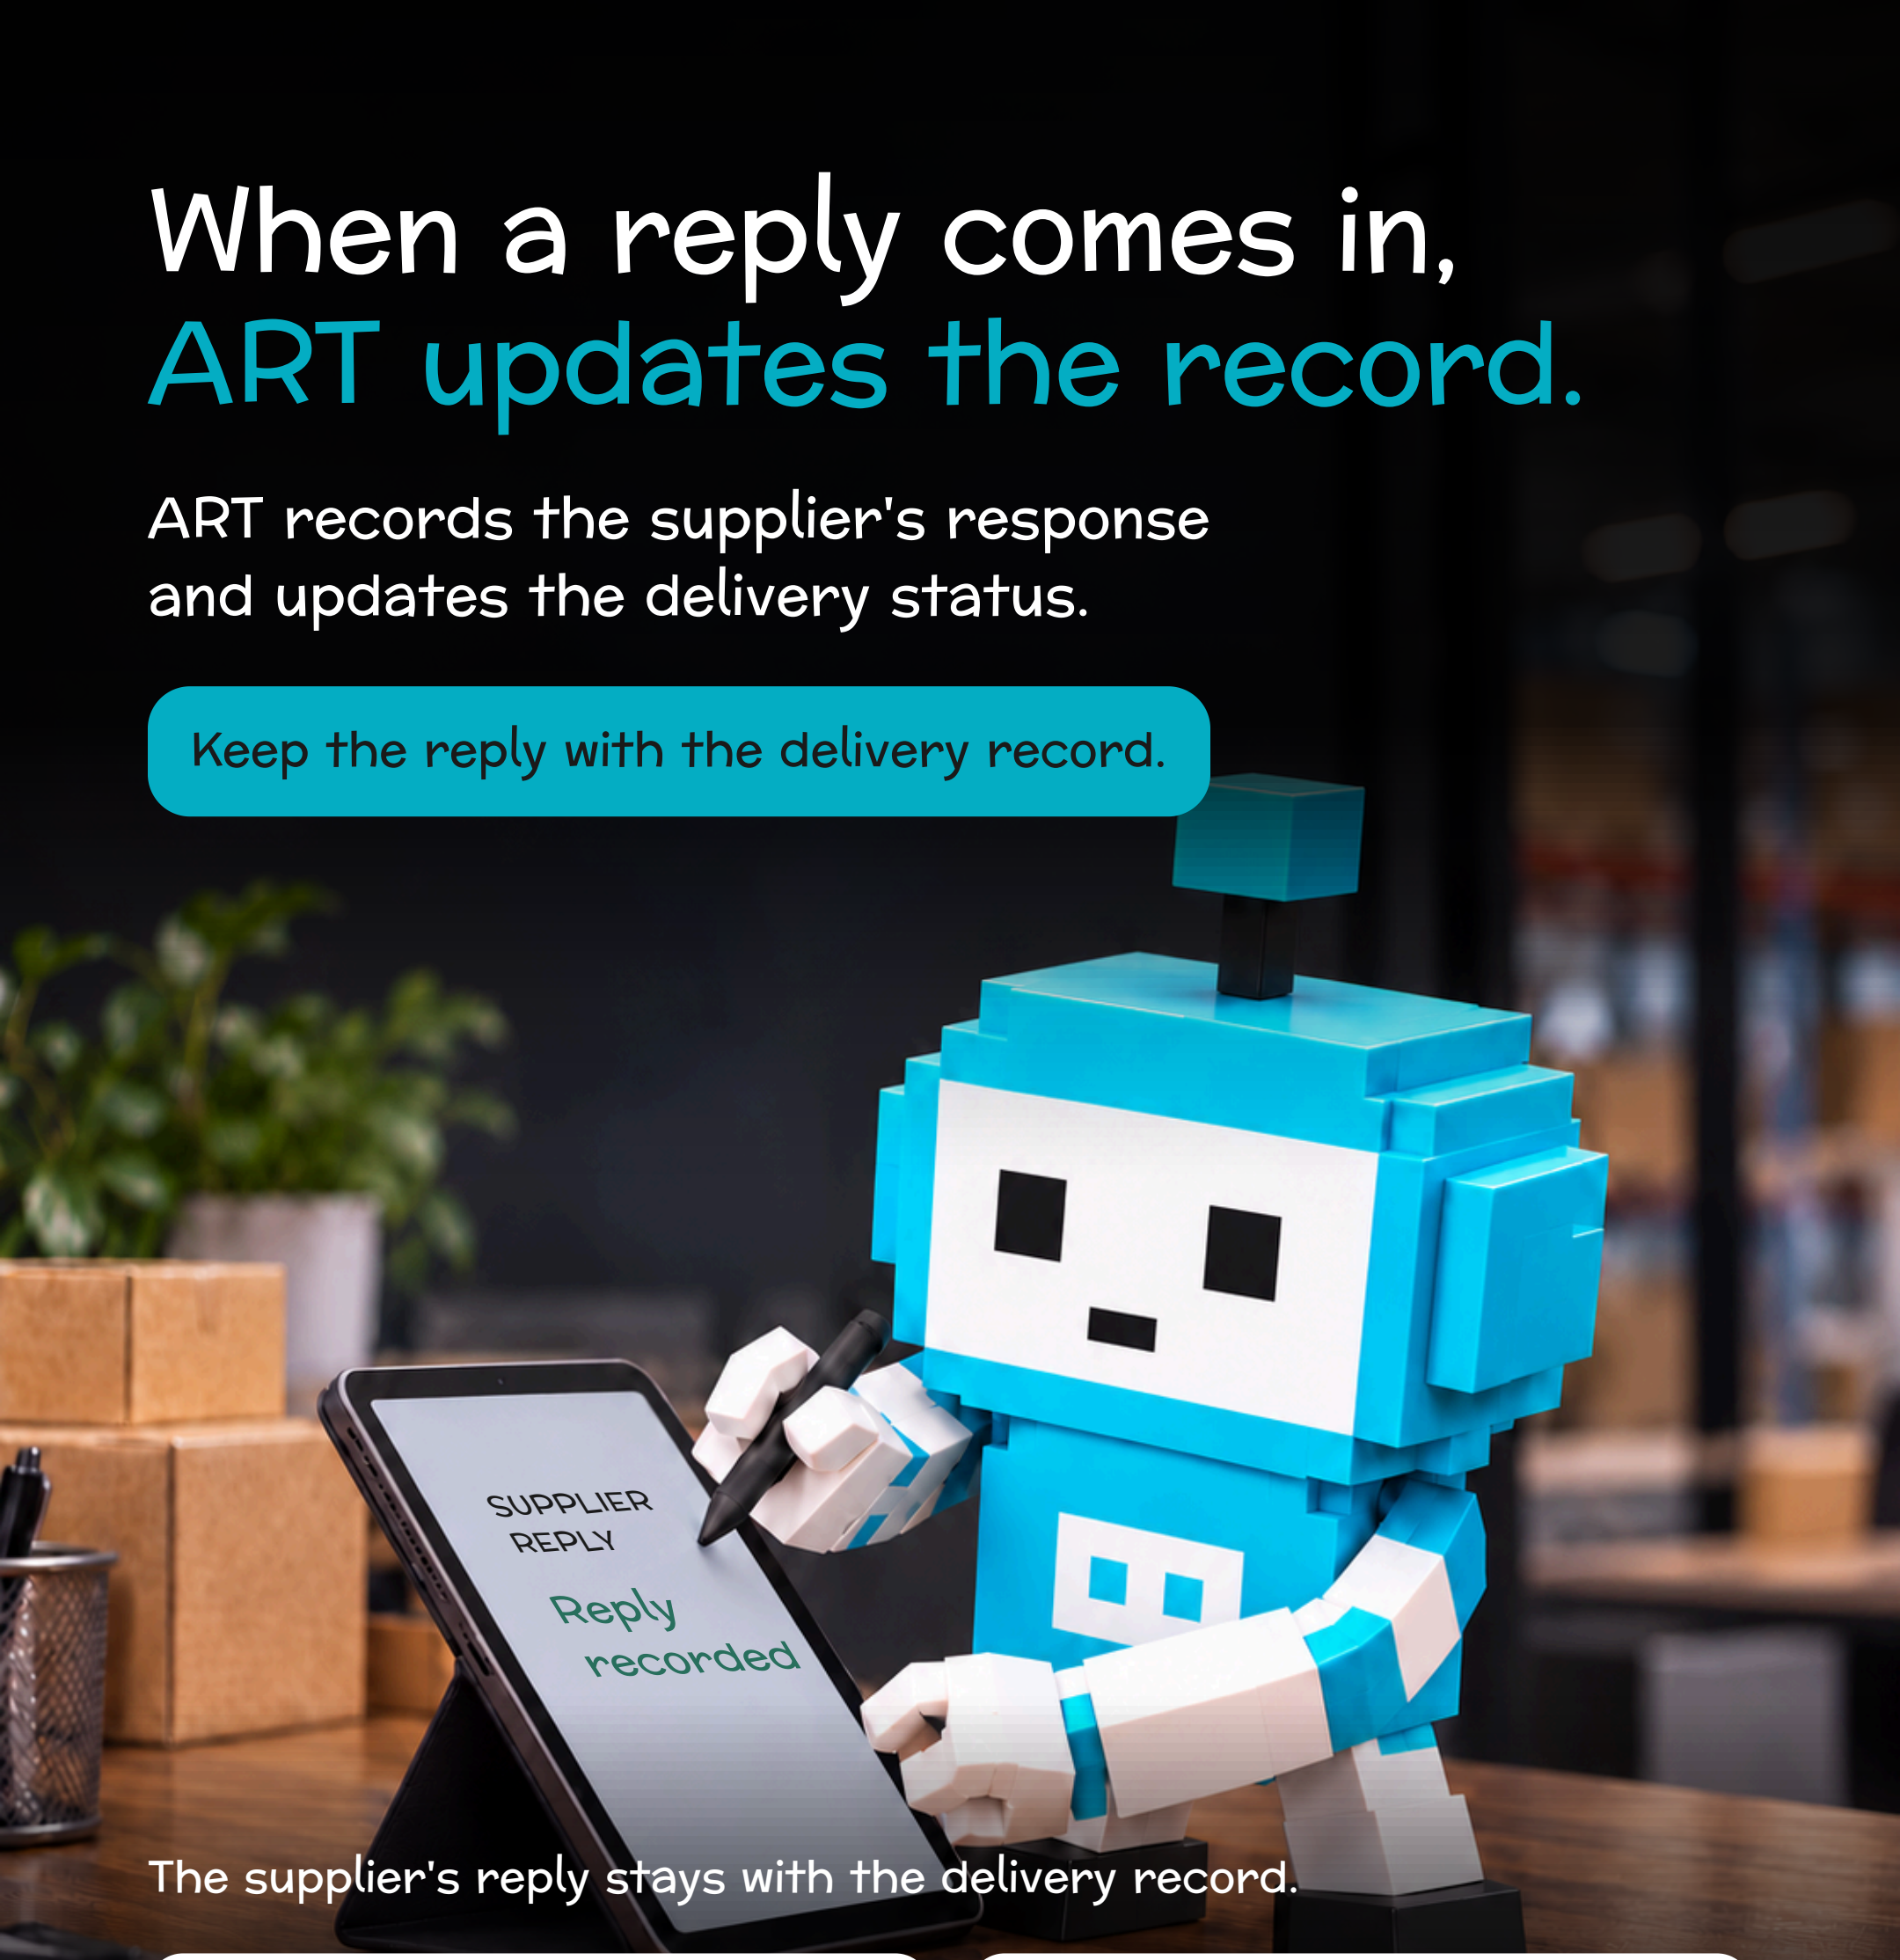

The follow-up is sent. ART now tracks the reply.

- A new date has been requested.
- The supplier has not replied yet.

When a reply comes in, ART updates the record.

ART records the supplier's response and updates the delivery status.

Keep the reply with the delivery record.

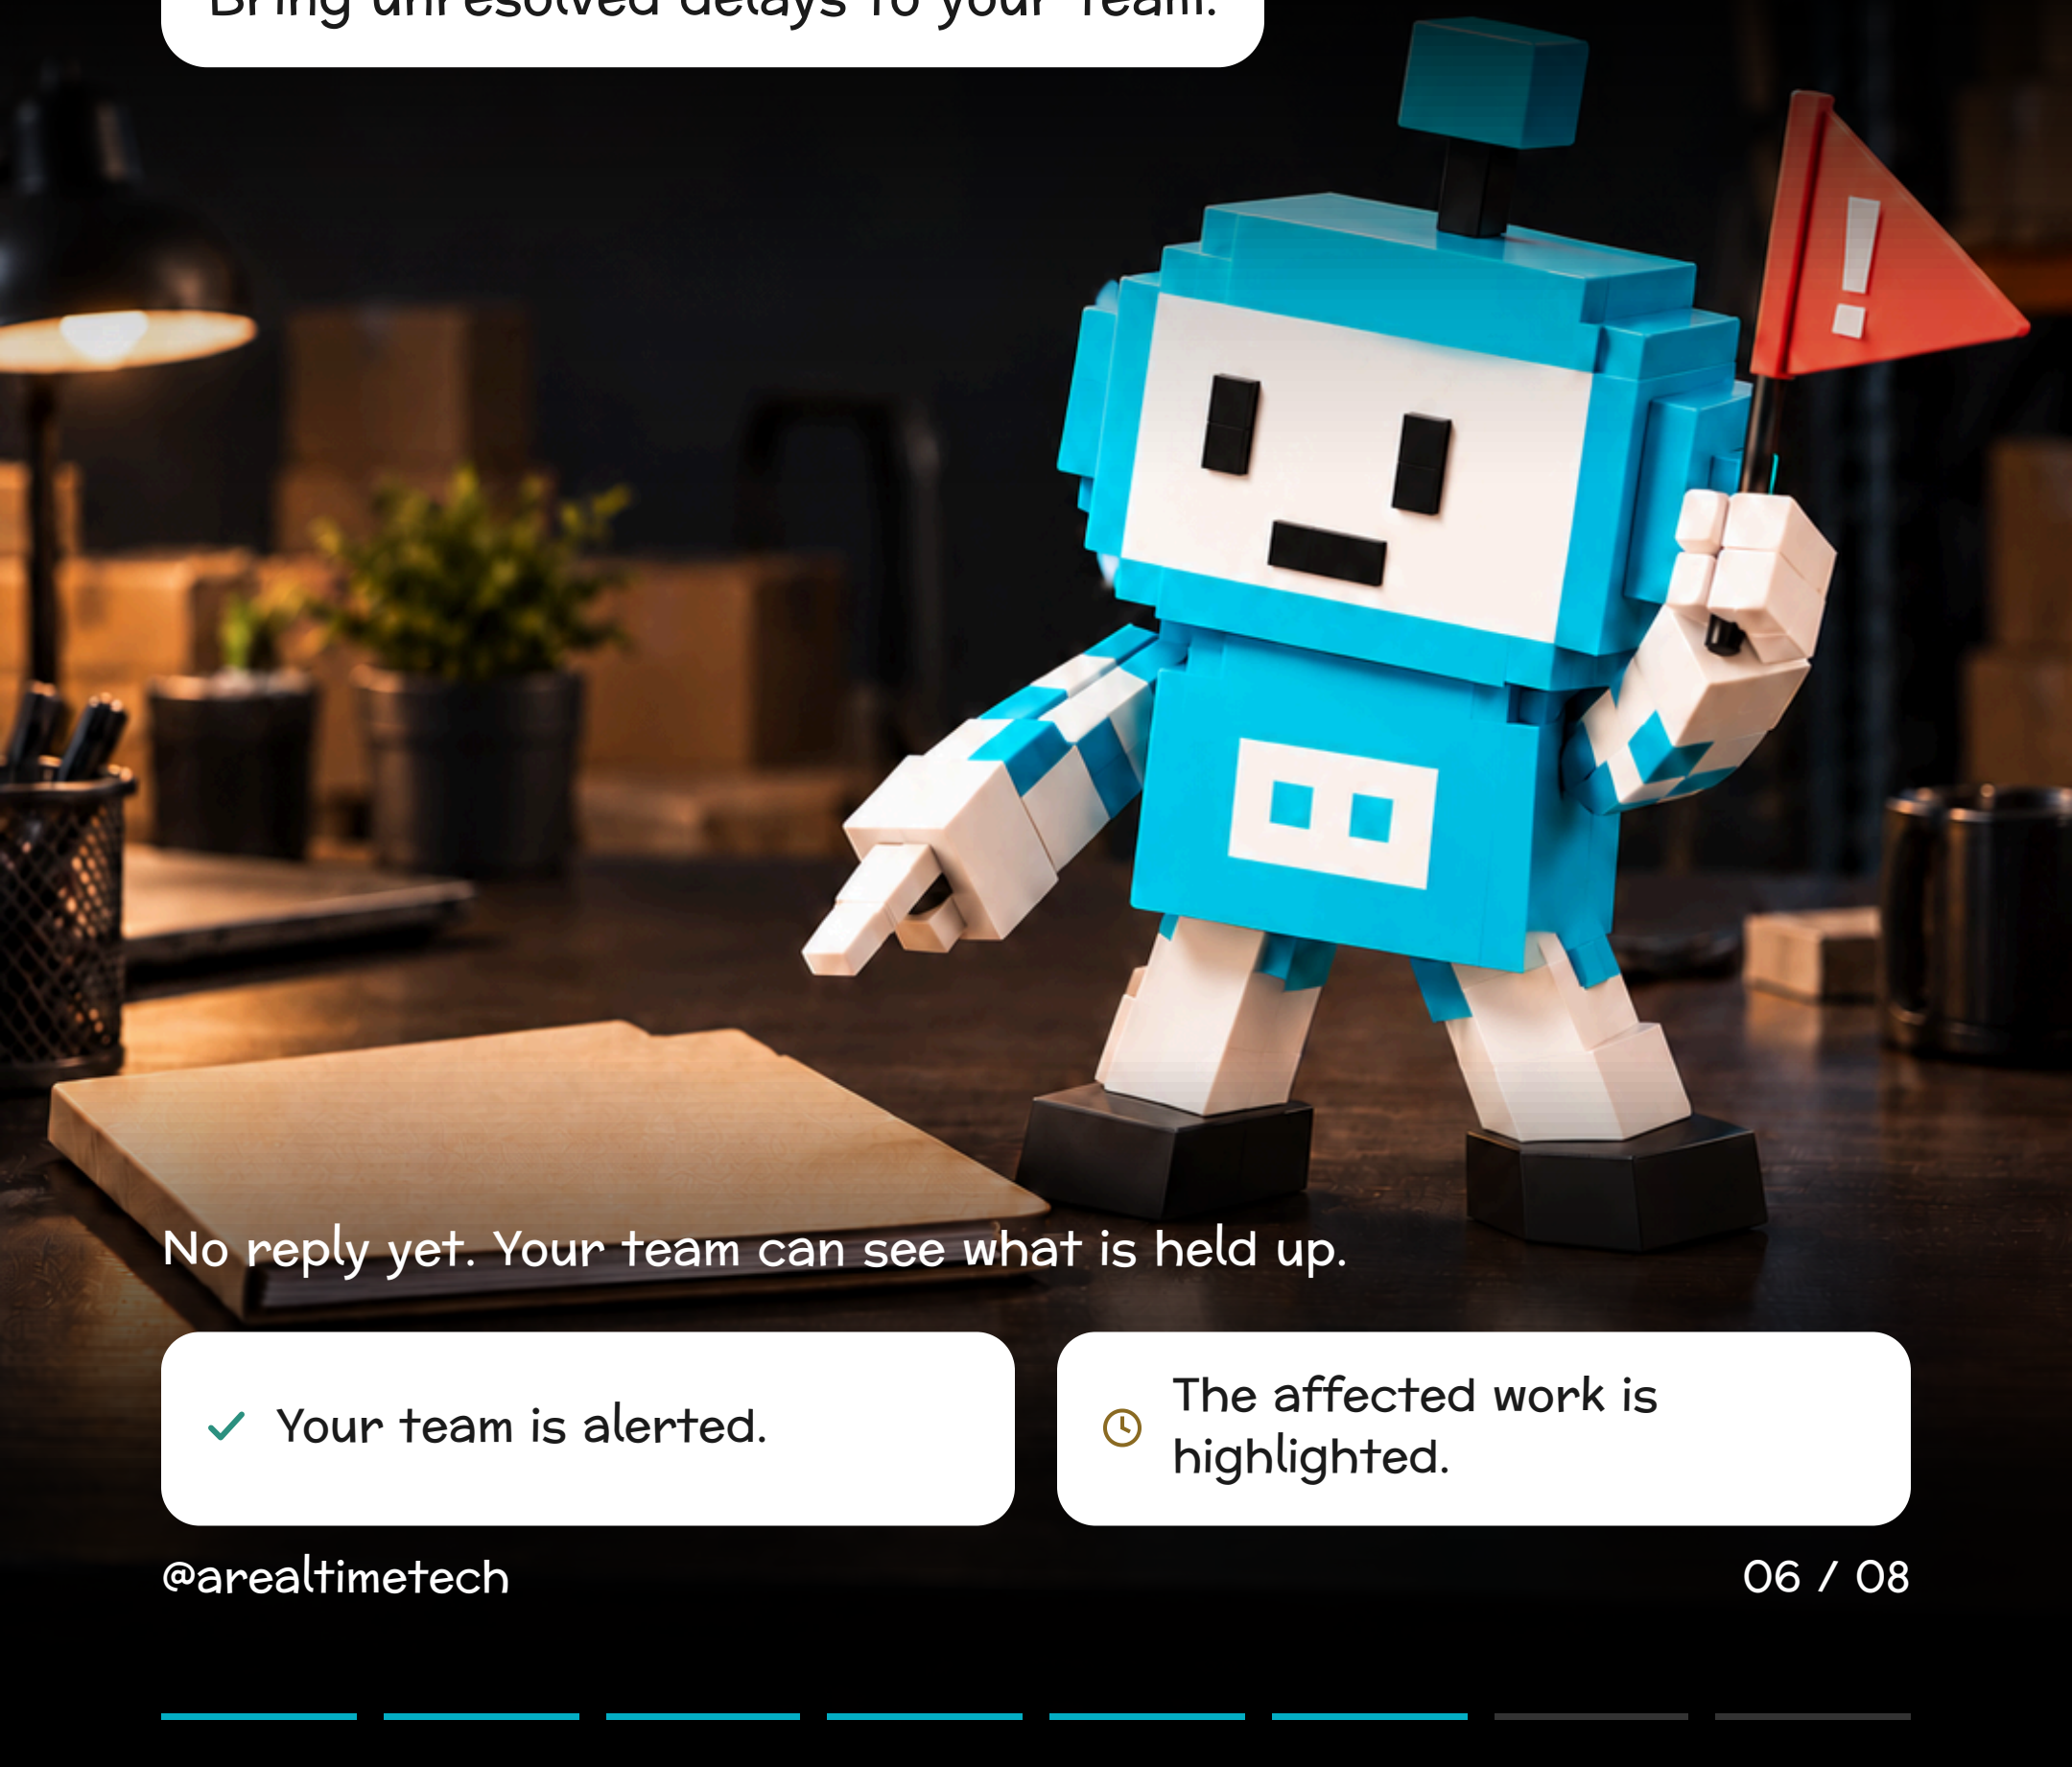

The supplier's reply stays with the delivery record.

- ✓ The supplier's reply is recorded.
- ✓ The delivery status is updated.

No reply yet?
ART flags the delay.

ART alerts your team and shows which work is waiting on the shipment.

Bring unresolved delays to your team.

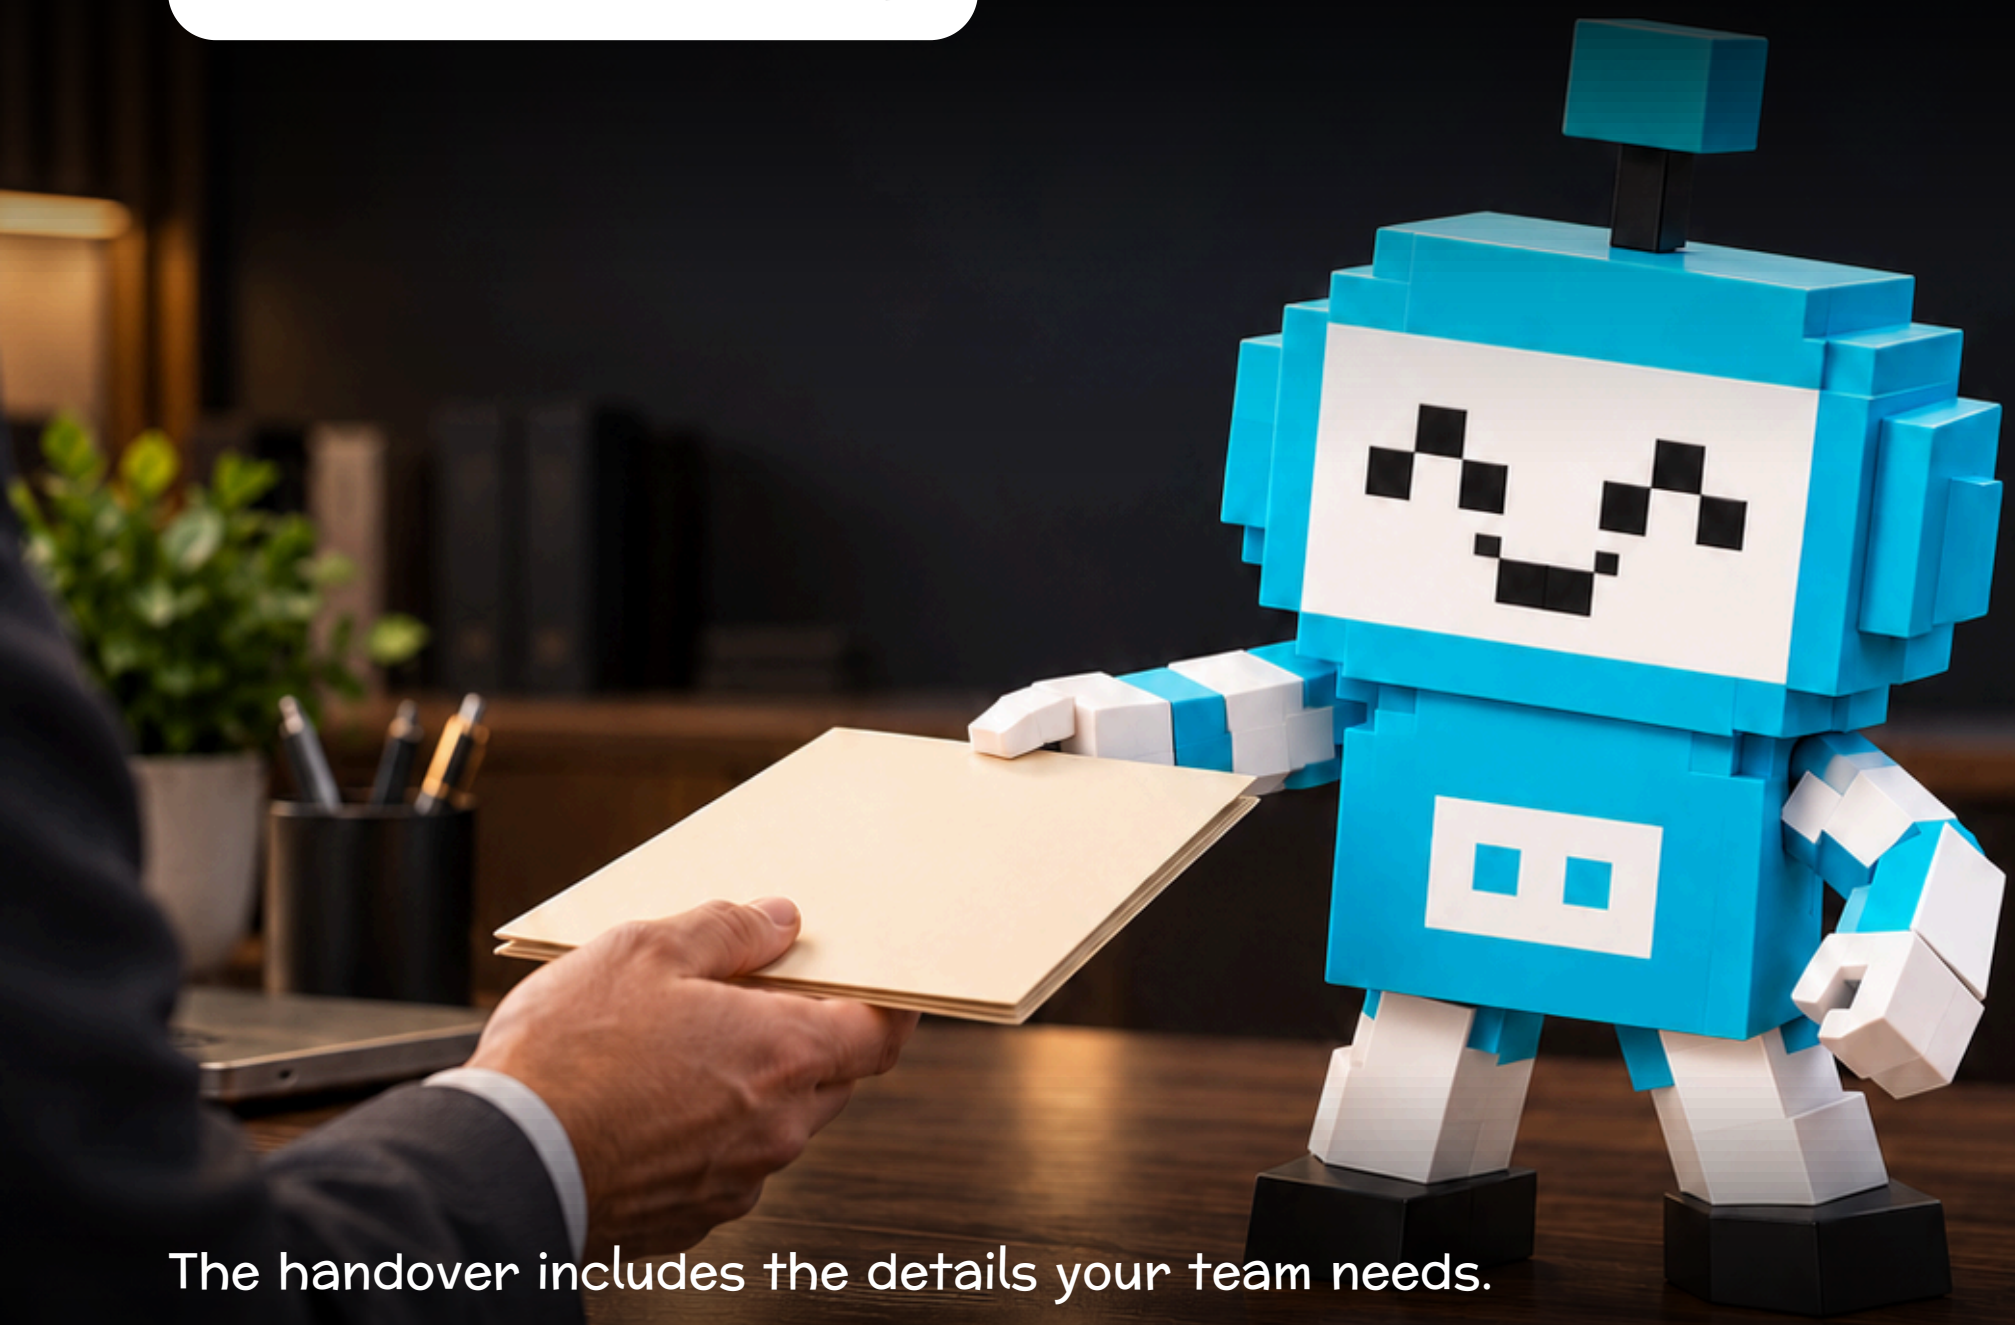

No reply yet. Your team can see what is held up.

- ✓ Your team is alerted.
- The affected work is highlighted.

ART brings the details.
You decide what's next.

Wait, escalate or explore another supplier.
Your team has the details to decide.

You choose the next step.

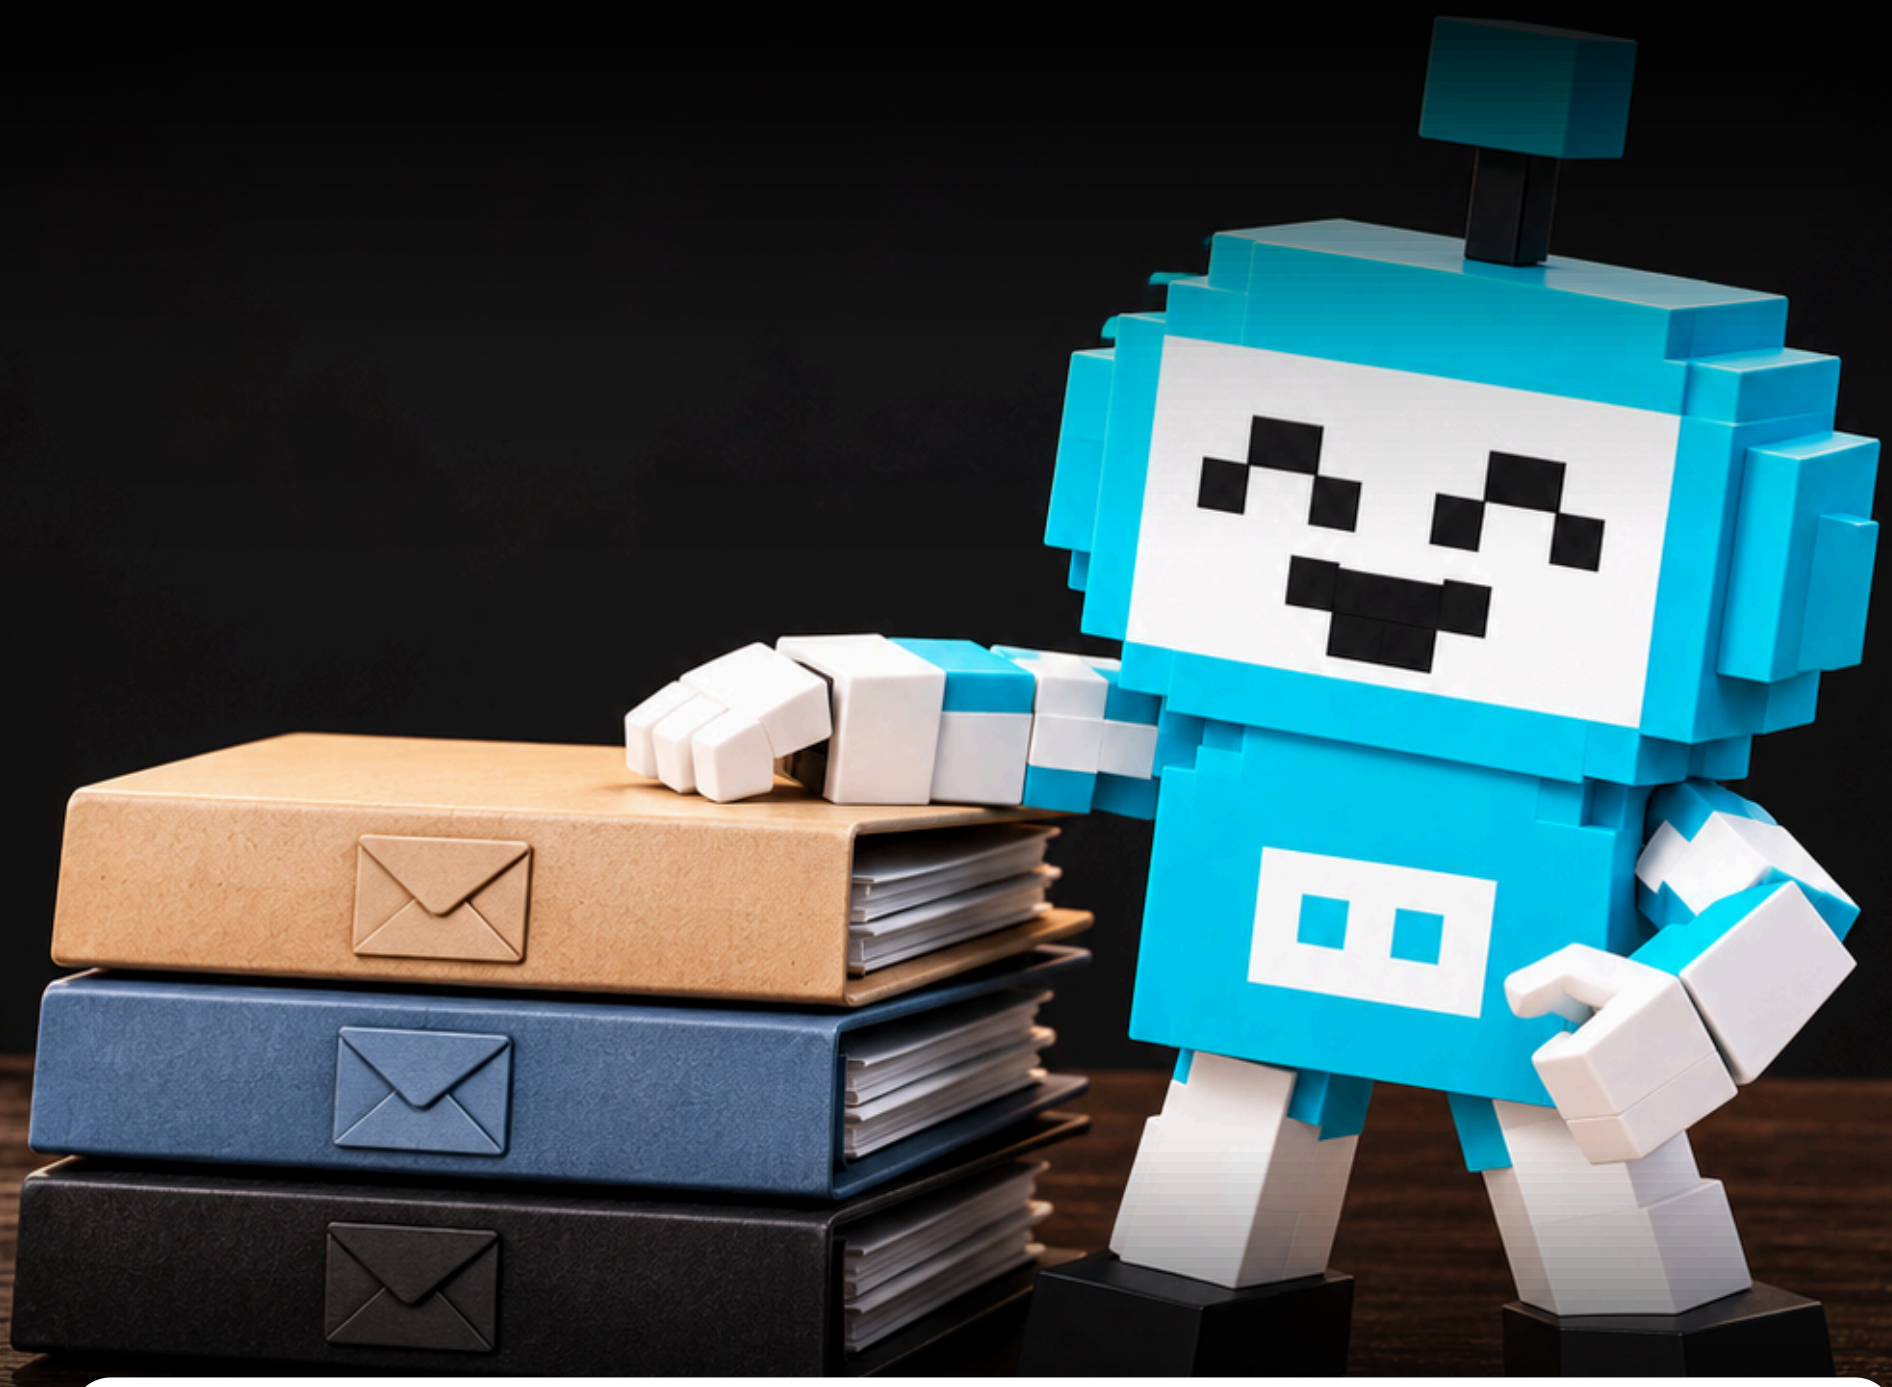

The handover includes the details your team needs.

- ✓ The delivery details are together.
- ✓ Your team decides the next step.

Keep work moving.
Let ART do the chasing.

ART (A Realtime Tech) handles delivery follow-ups so your team can focus on the work ahead.

A REALTIME TECH

Put ART to work.
