ONE CONTAINER. SEVEN CALLS.

Slide 1 / 10-second motion storyboard

00:00–00:01.35

ENTER

The title is visible immediately. One container waits outside the port operations room as ART enters holding the tablet.

00:01.35–00:01.80

NOTICE

ART stops and checks the tablet. The wall is clear before the inbound call log appears.

00:01.80–00:03.40

START OF THE CHASE

Booking, Packing List and Pickup populate one shared call log. Each arrival briefly marks the container visible through the window.

00:03.40–00:05.55

SEVEN CALLS

Delay Update, Truck Timing, Loading Window and Customs Check complete the log. The count reaches 07 / 07.

00:05.55–00:06.80

PRESSURE

ART recoils into the existing stressed 3D pose only when the seventh call lands. The log clears for the message.

00:06.80–00:10.00

COVER HOLD

The exact supporting copy appears. The title, ART and the one container remain in frame for the final readable hold.
