Supplier said Tuesday.
It's Friday.
ART's on it.

ART (A Realtime Tech) follows up on overdue deliveries.

Your team shouldn't have to chase.

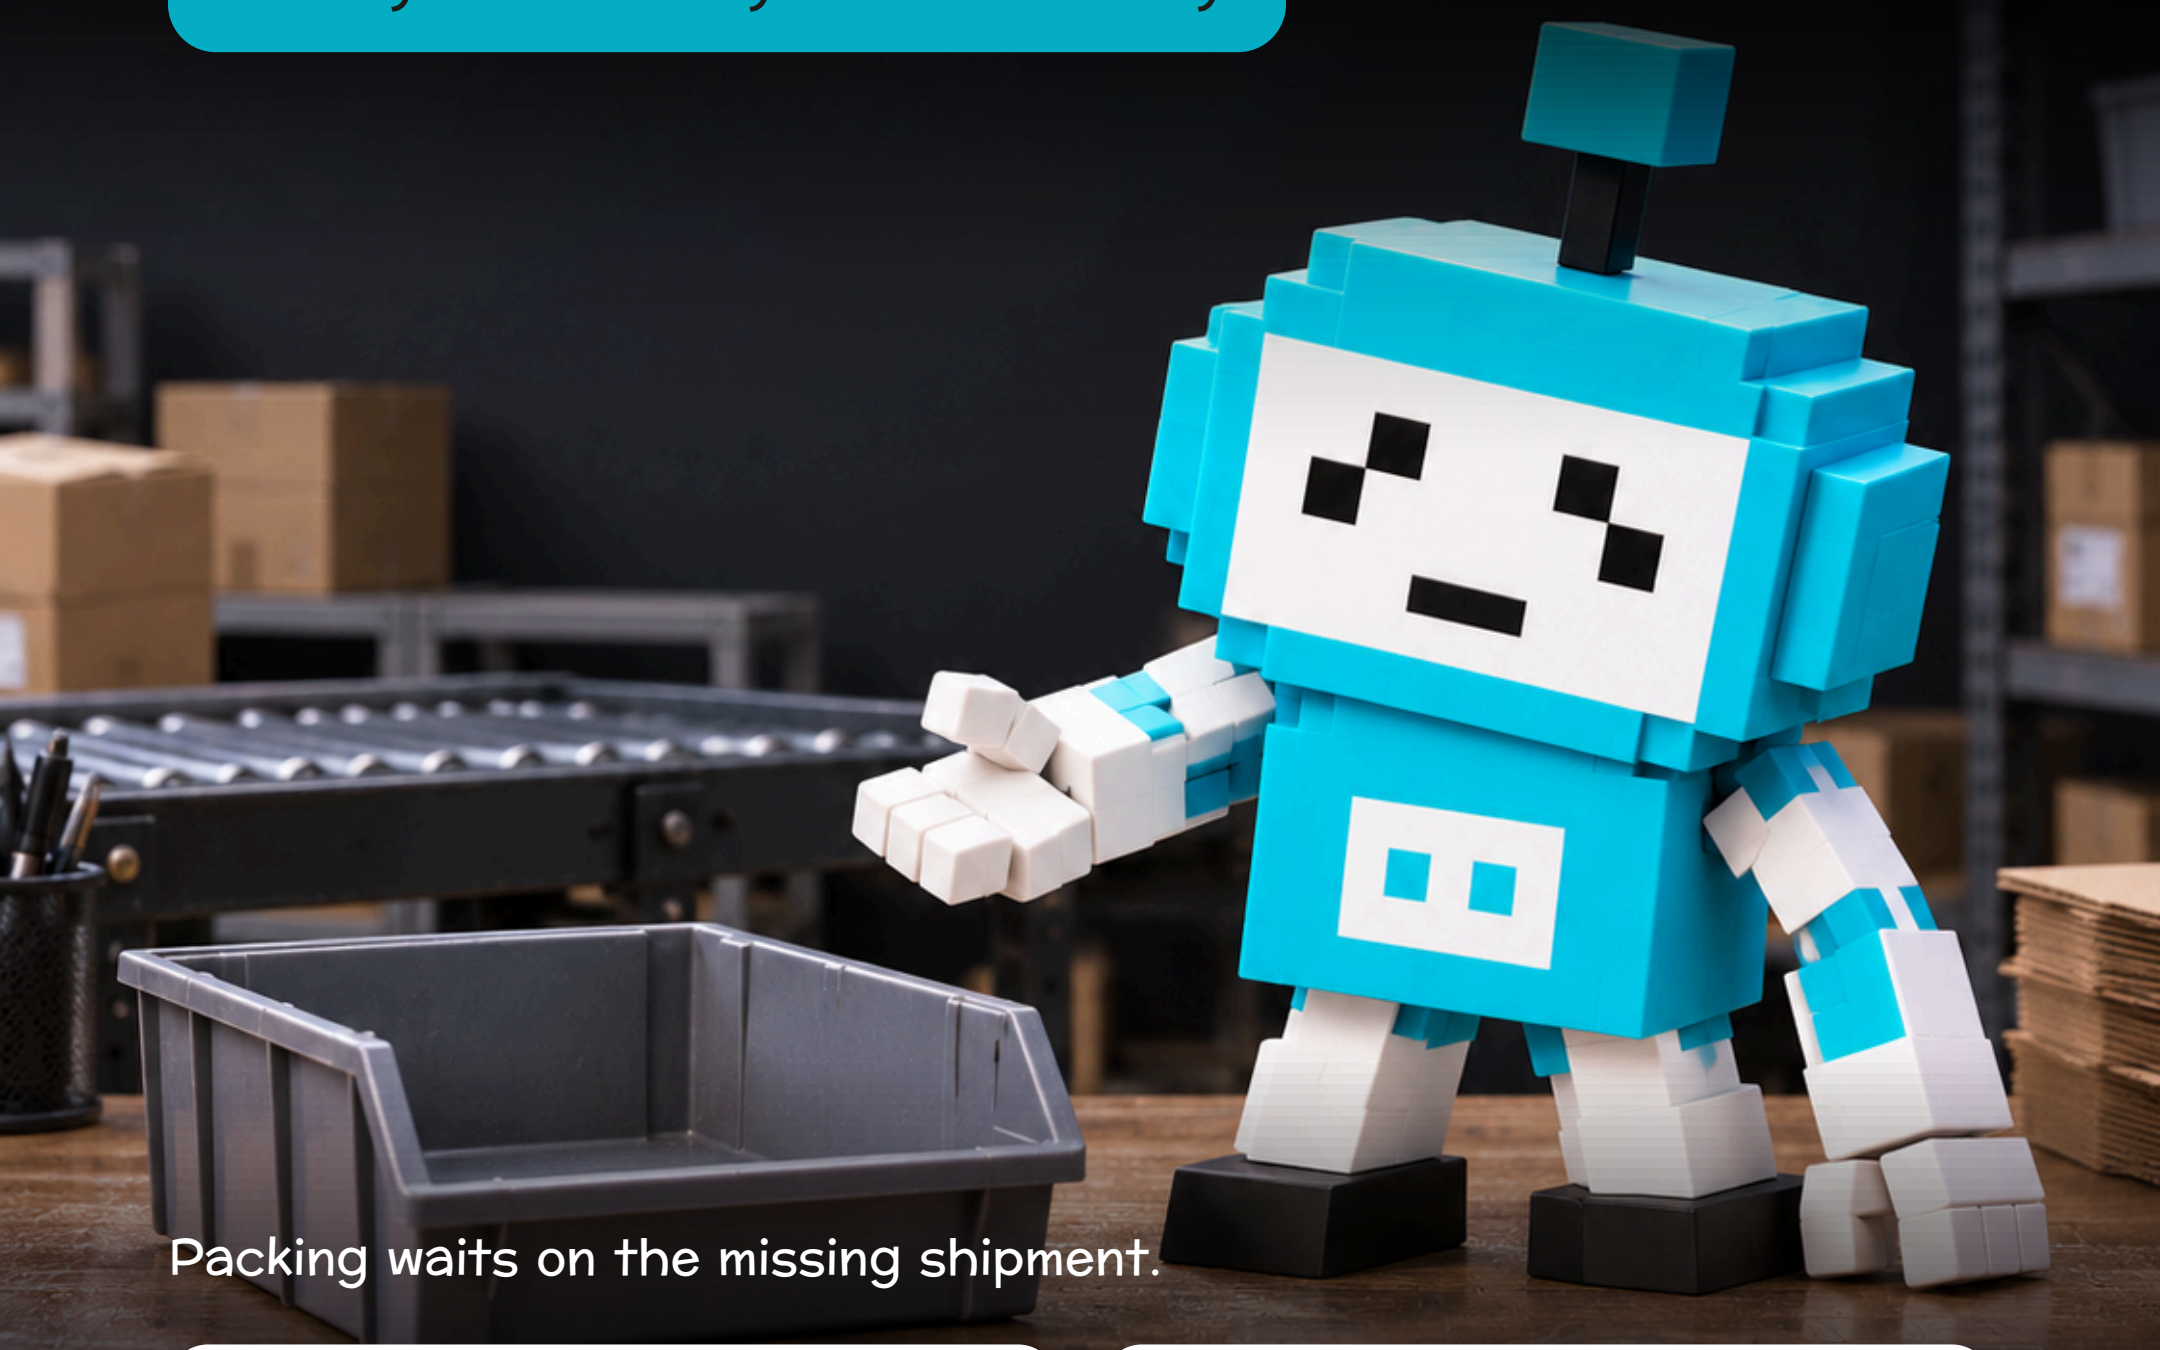

ART takes the follow-up off your team.

- ✓ Overdue delivery identified.
- ✓ Follow-up handled by ART.

The delivery slipped.
Your work shouldn't.

One late shipment can hold up everything after it.

A delay reaches beyond the delivery.

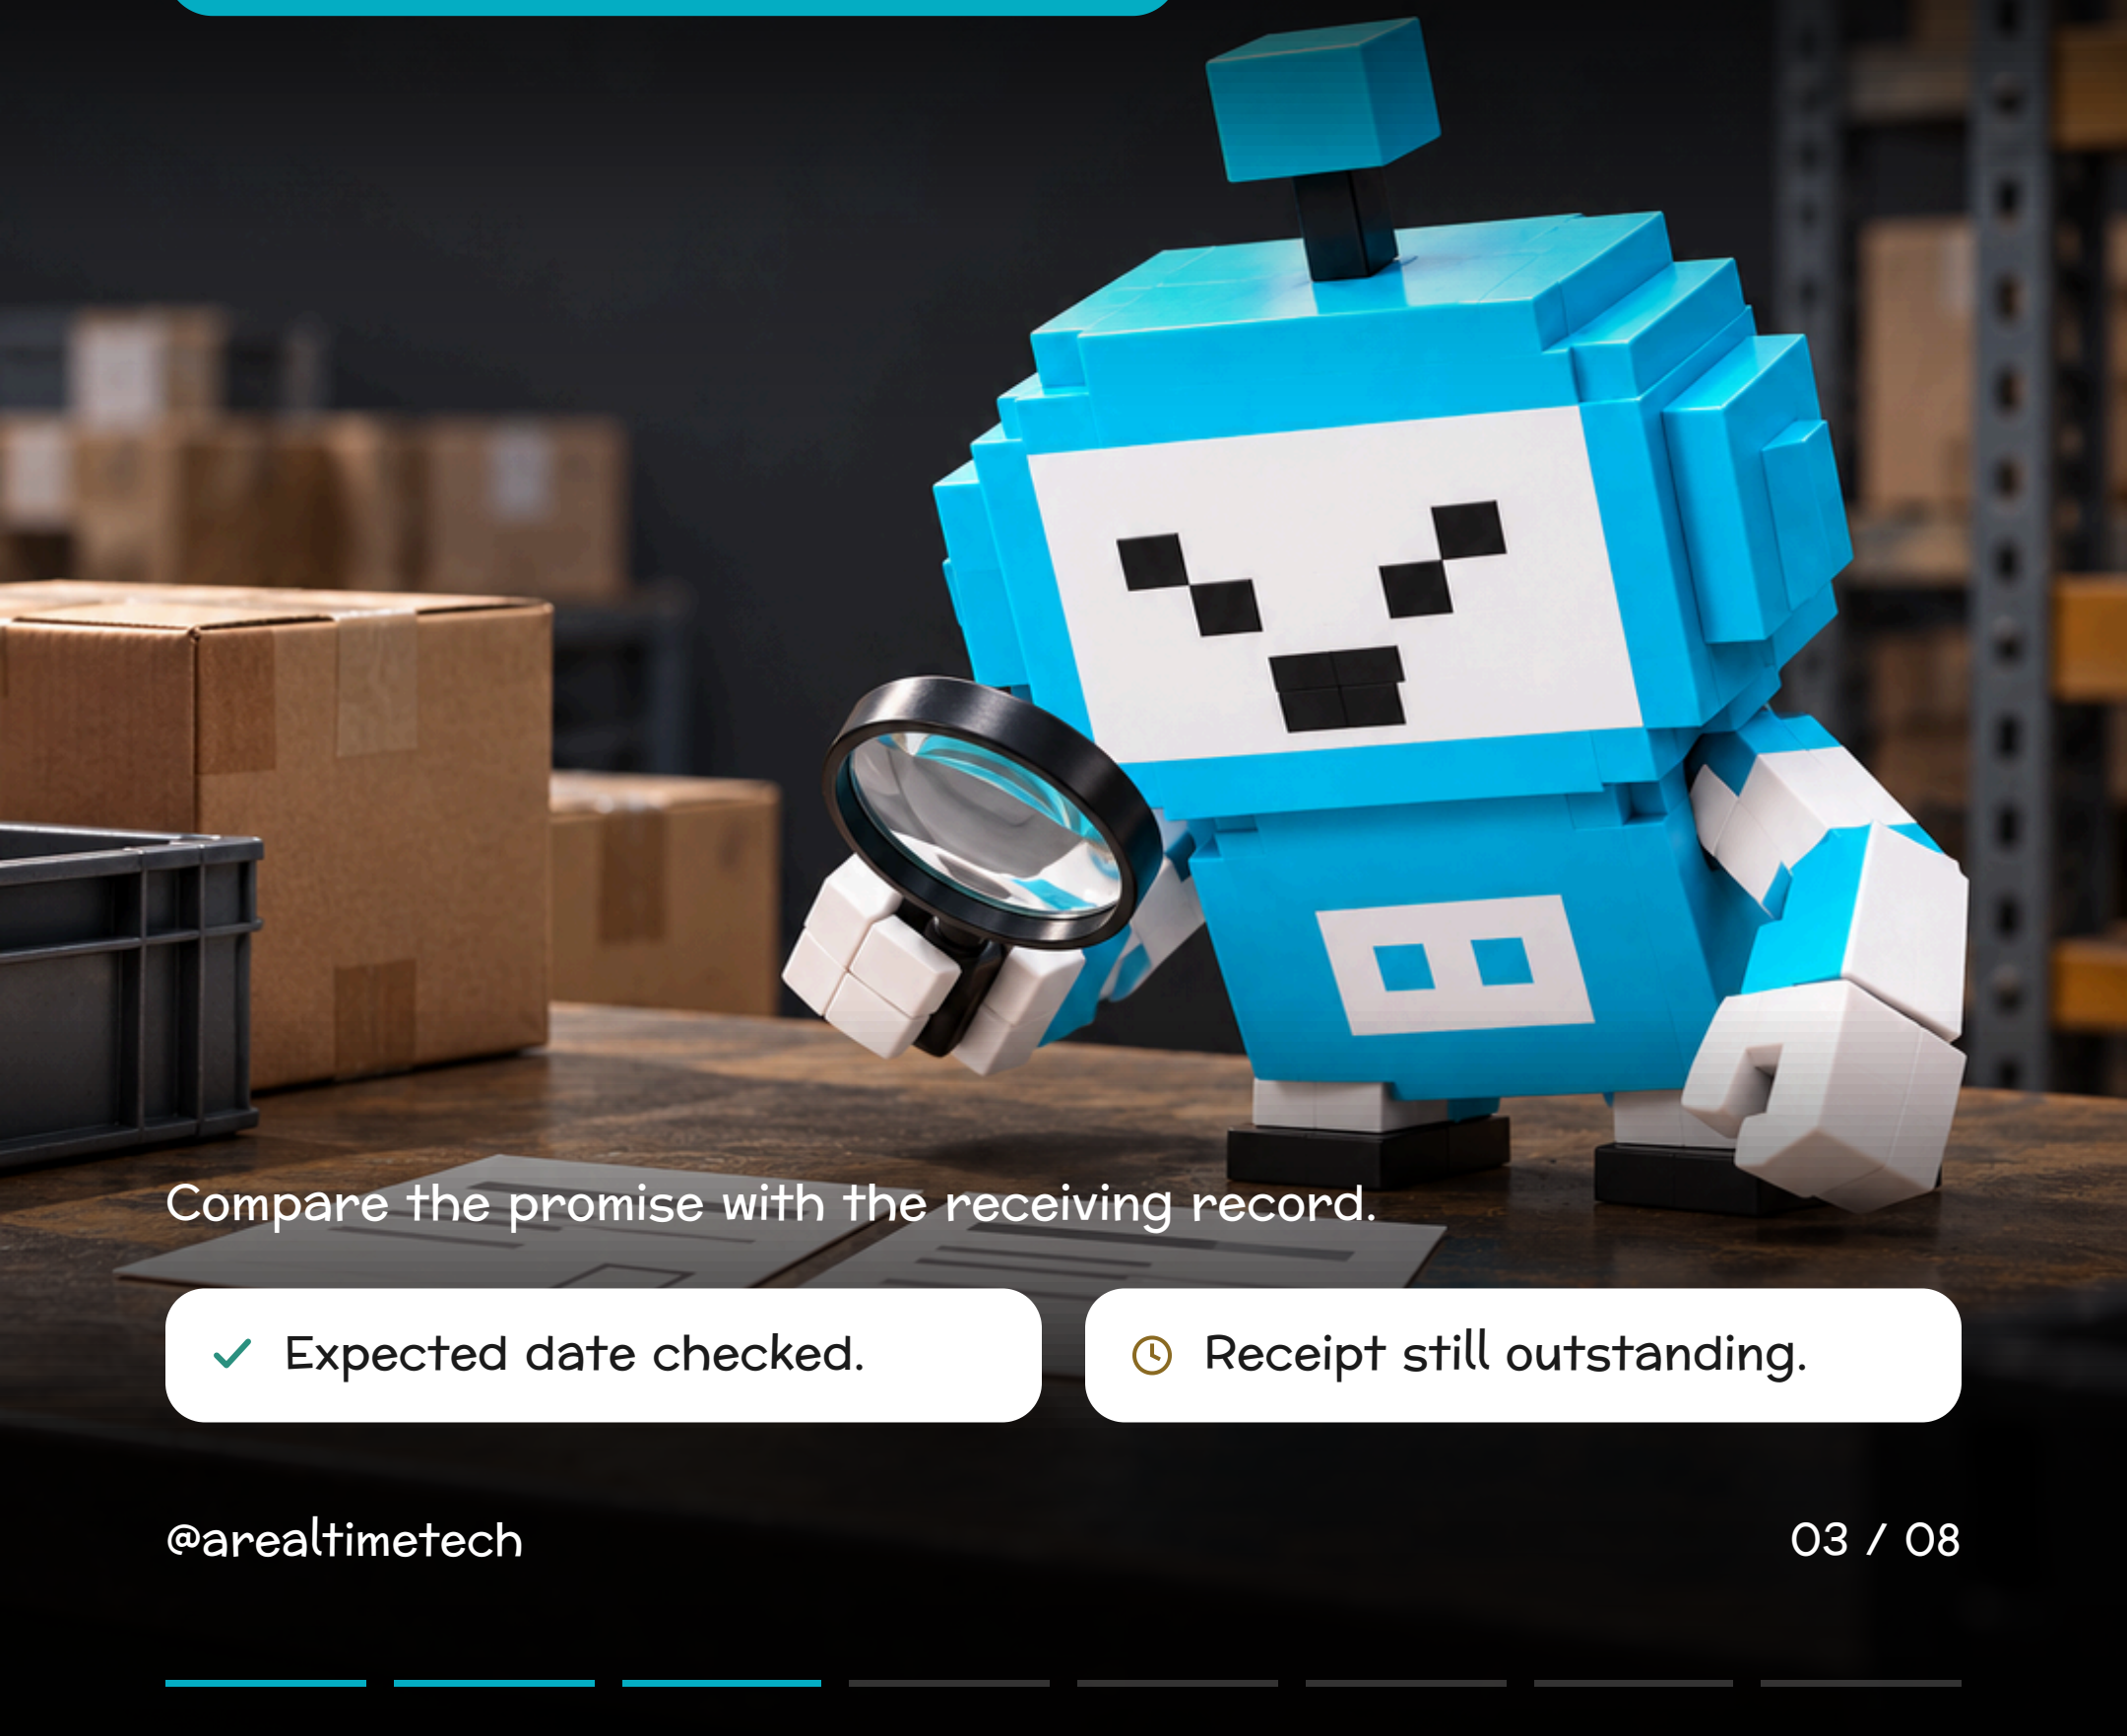

Packing waits on the missing shipment.

- ✓ One shipment delayed.
- Downstream work affected.

ART catches the missed date.

It checks the expected delivery against what's actually arrived.

Expected delivery. Actual receipt.

Compare the promise with the receiving record.

✓ Expected date checked.

Receipt still outstanding.

"Any update?"
Already sent.

ART follows up with the supplier for a revised delivery date.

Ask for a date. Track the reply.

A follow-up requests the revised date.

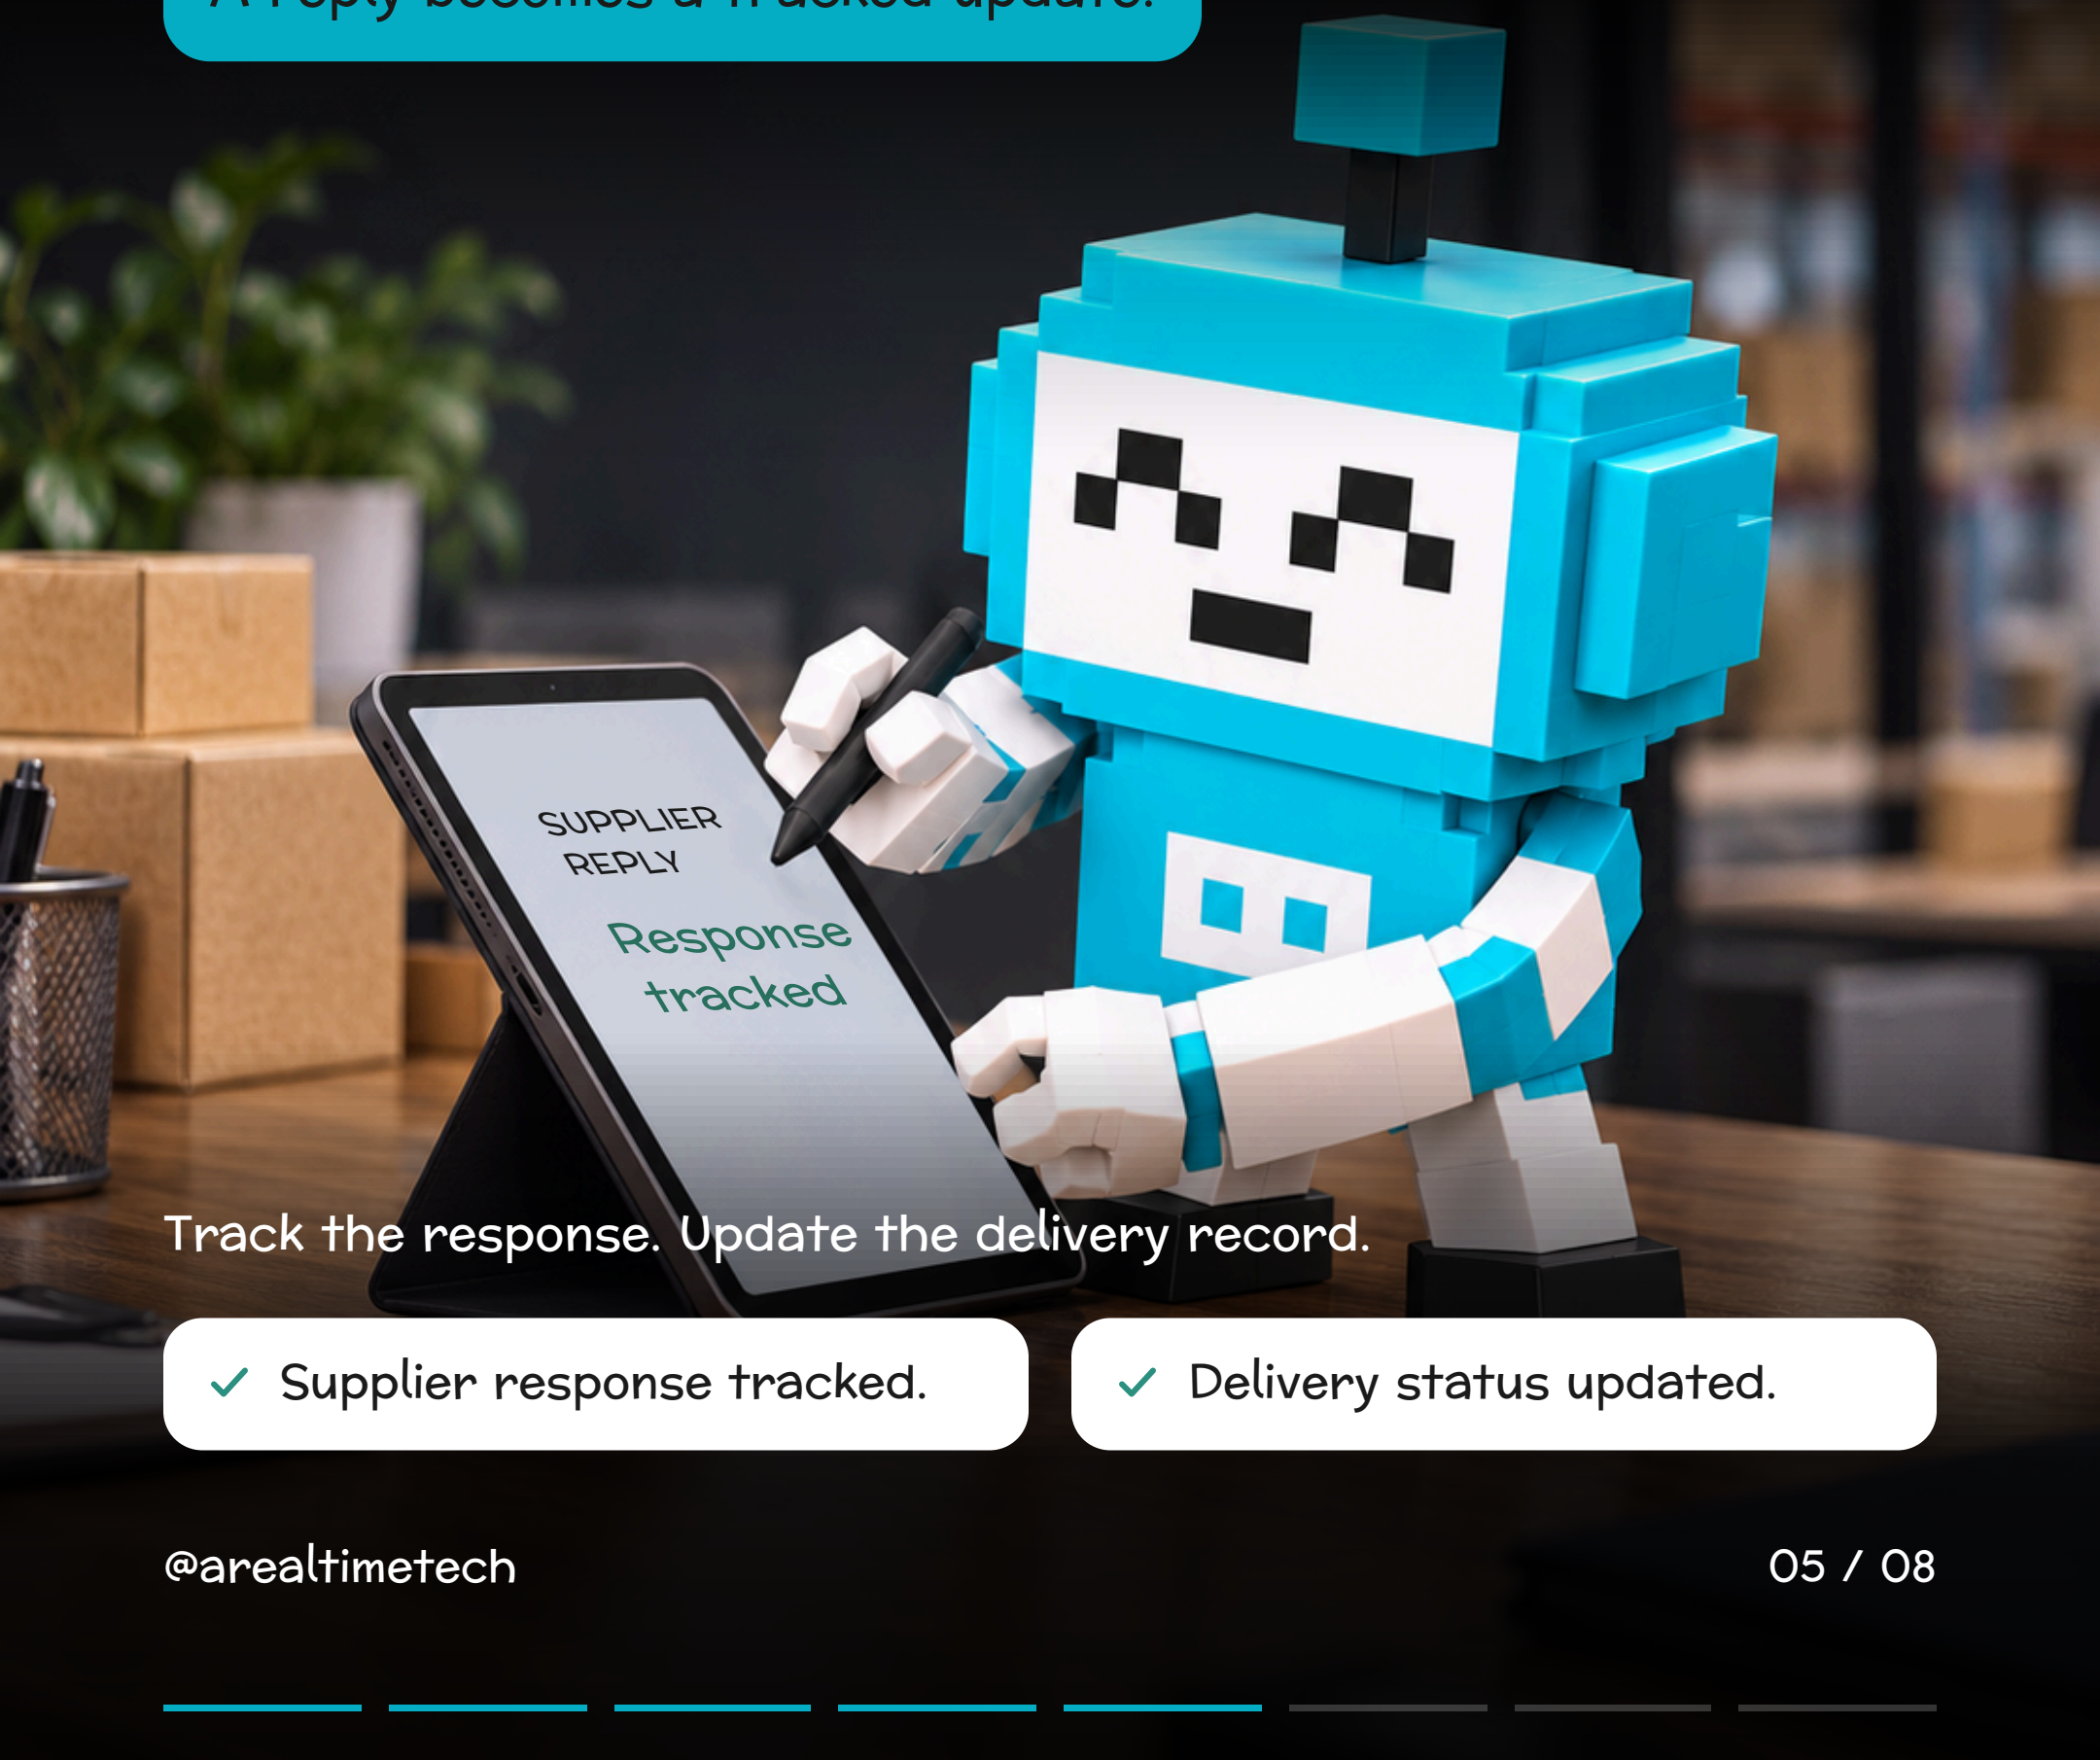

✓ Revised date requested.

Supplier reply pending.

A new date needs a clear answer.

ART tracks the supplier's response and updates the delivery status.

A reply becomes a tracked update.

Track the response. Update the delivery record.

- ✓ Supplier response tracked.
- ✓ Delivery status updated.

Still no answer?
You hear about it.

ART flags the delay and shows what's waiting on the shipment.

Unresolved? Bring in your team.

No reply. Shipment-dependent work flagged.

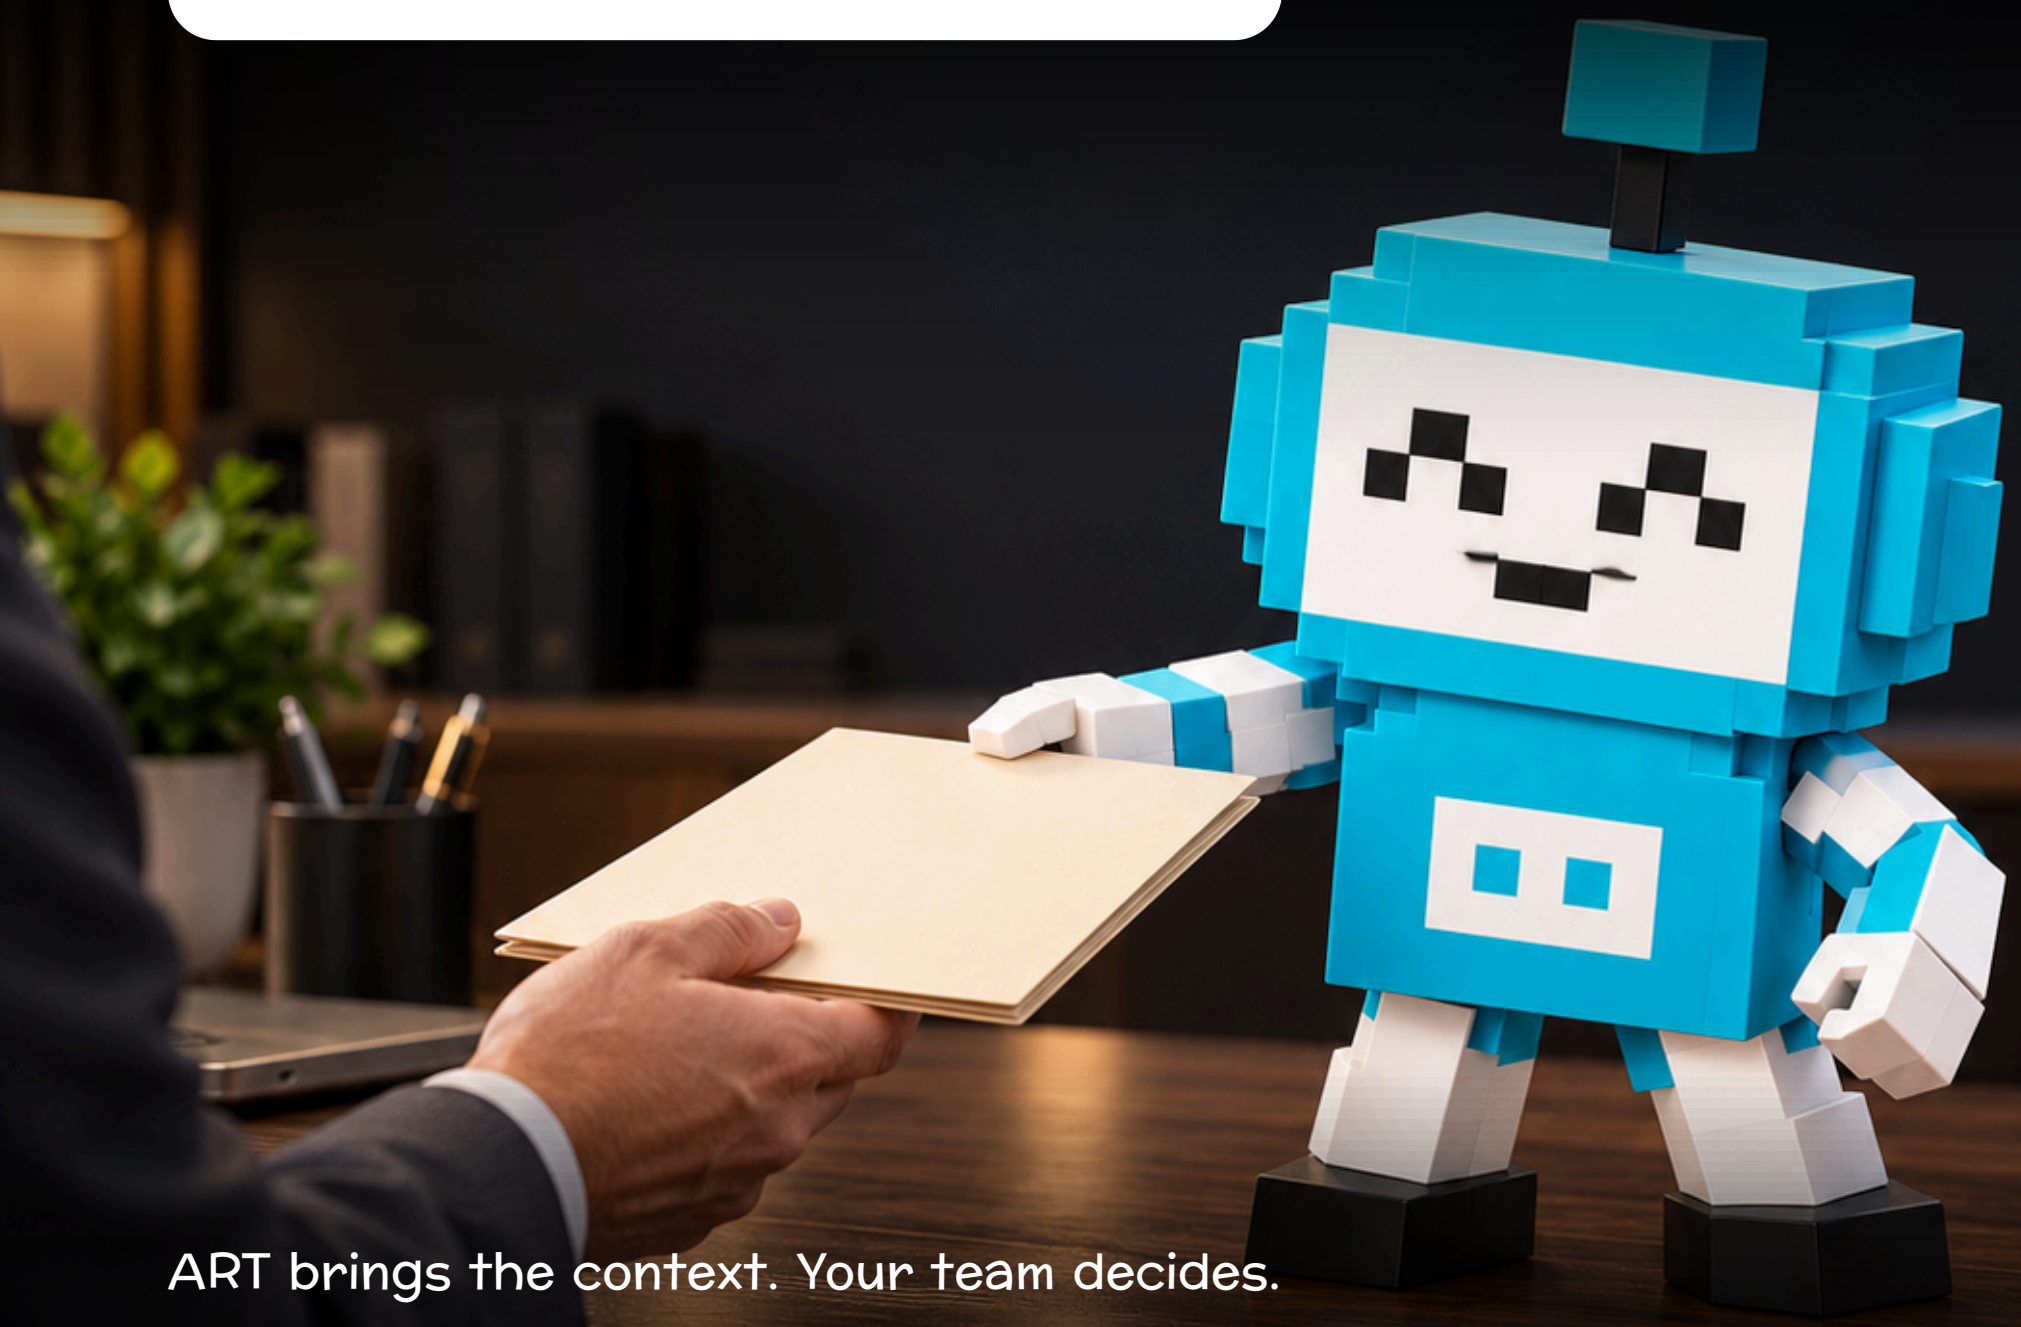

✓ Delay flagged.

Affected work highlighted.

The chasing is handled.
The next call stays yours.

Wait, escalate or explore another supplier
with the context in hand.

The context comes with the decision.

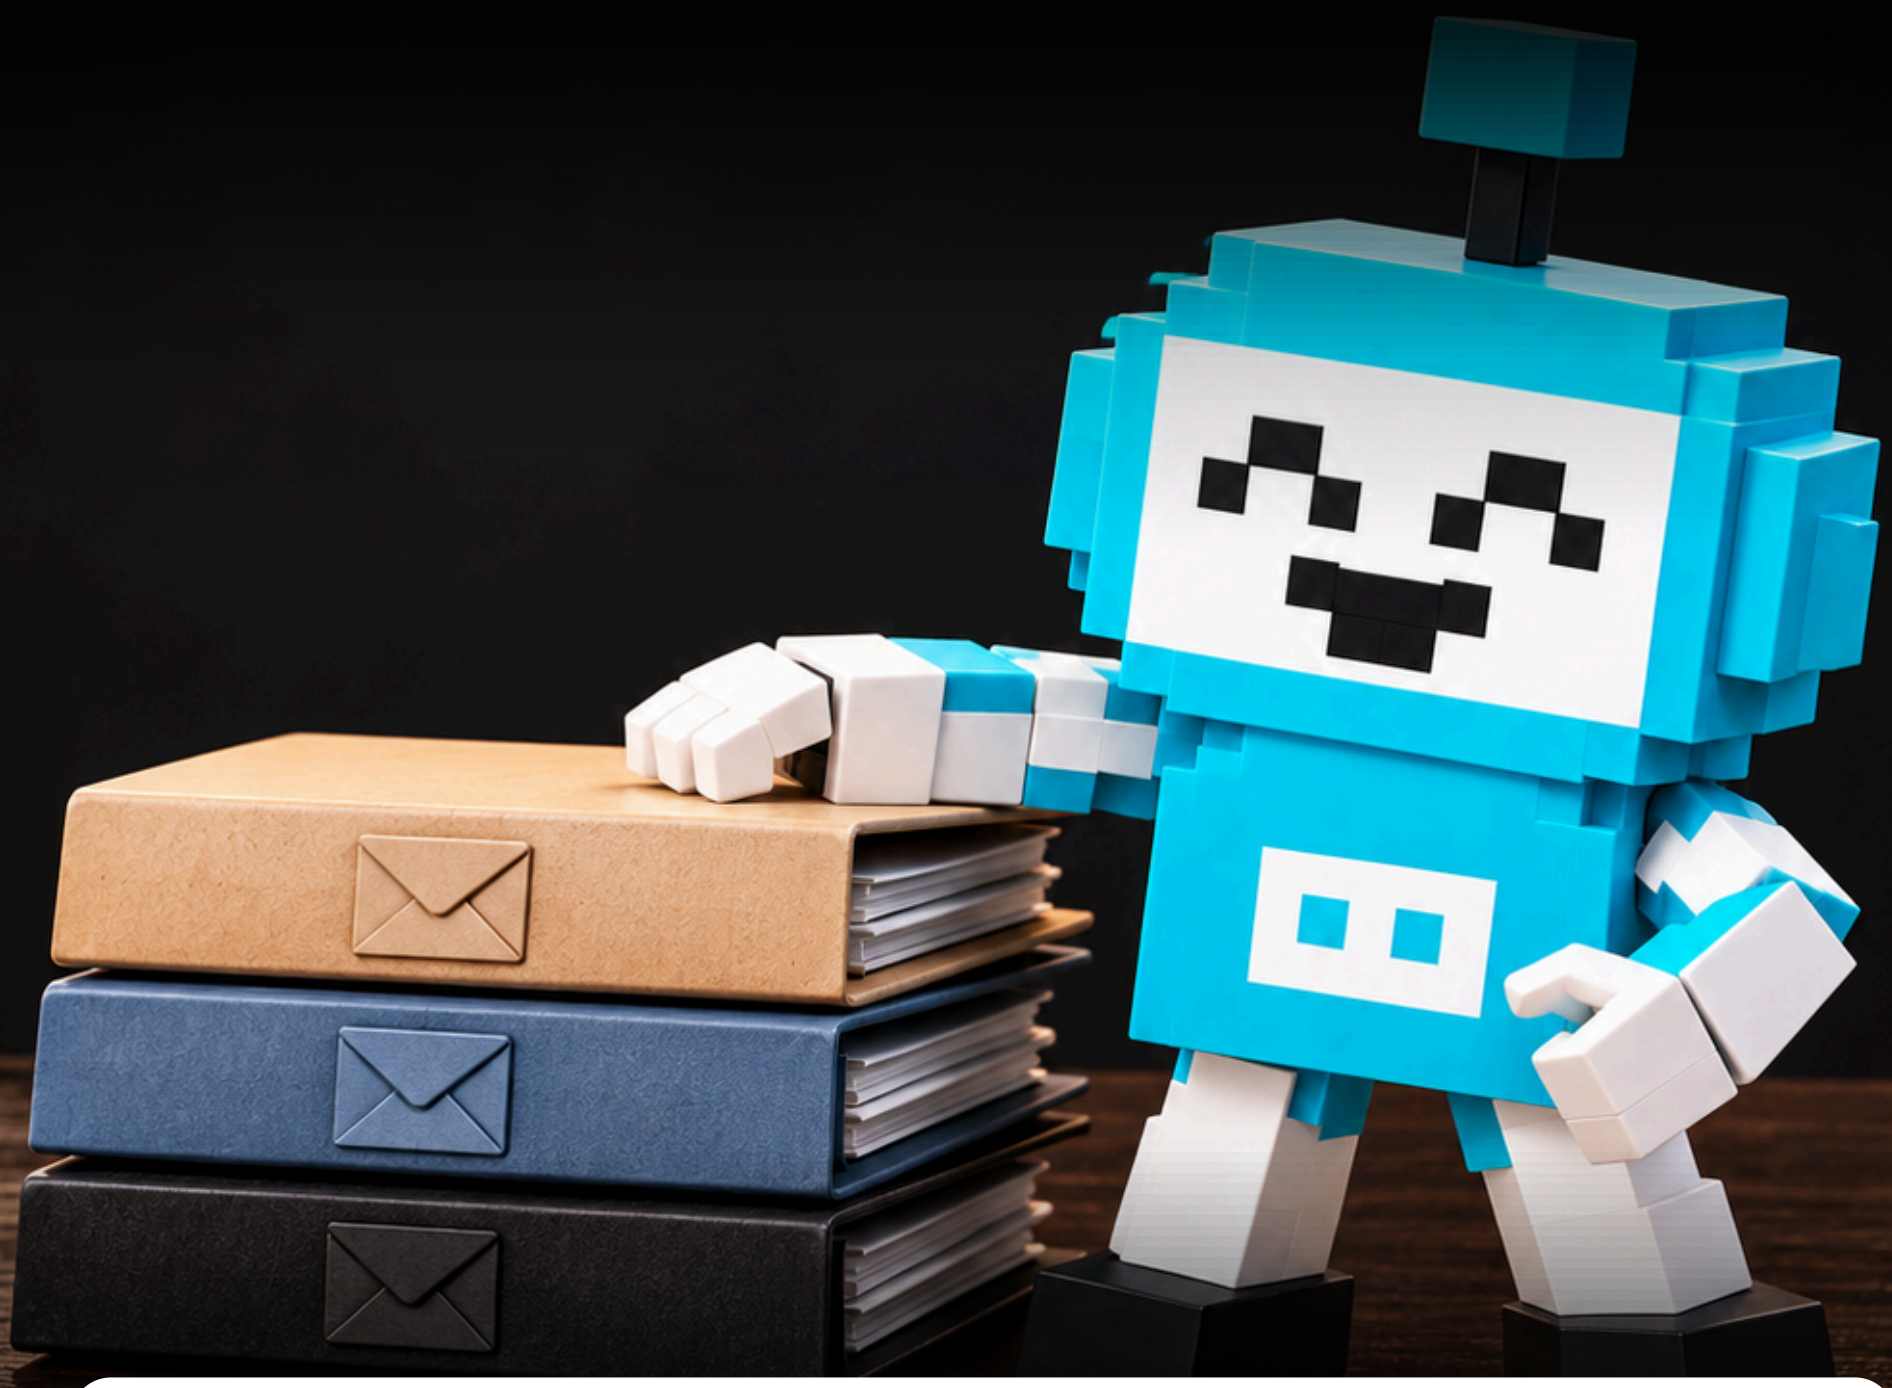

ART brings the context. Your team decides.

- ✓ Context brought together.
- ✓ Next decision stays yours.

Keep work moving.
Let ART do the chasing.

ART (A Realtime Tech) keeps delivery follow-ups off your team's to-do list.

A REALTIME TECH

Put ART to work.
