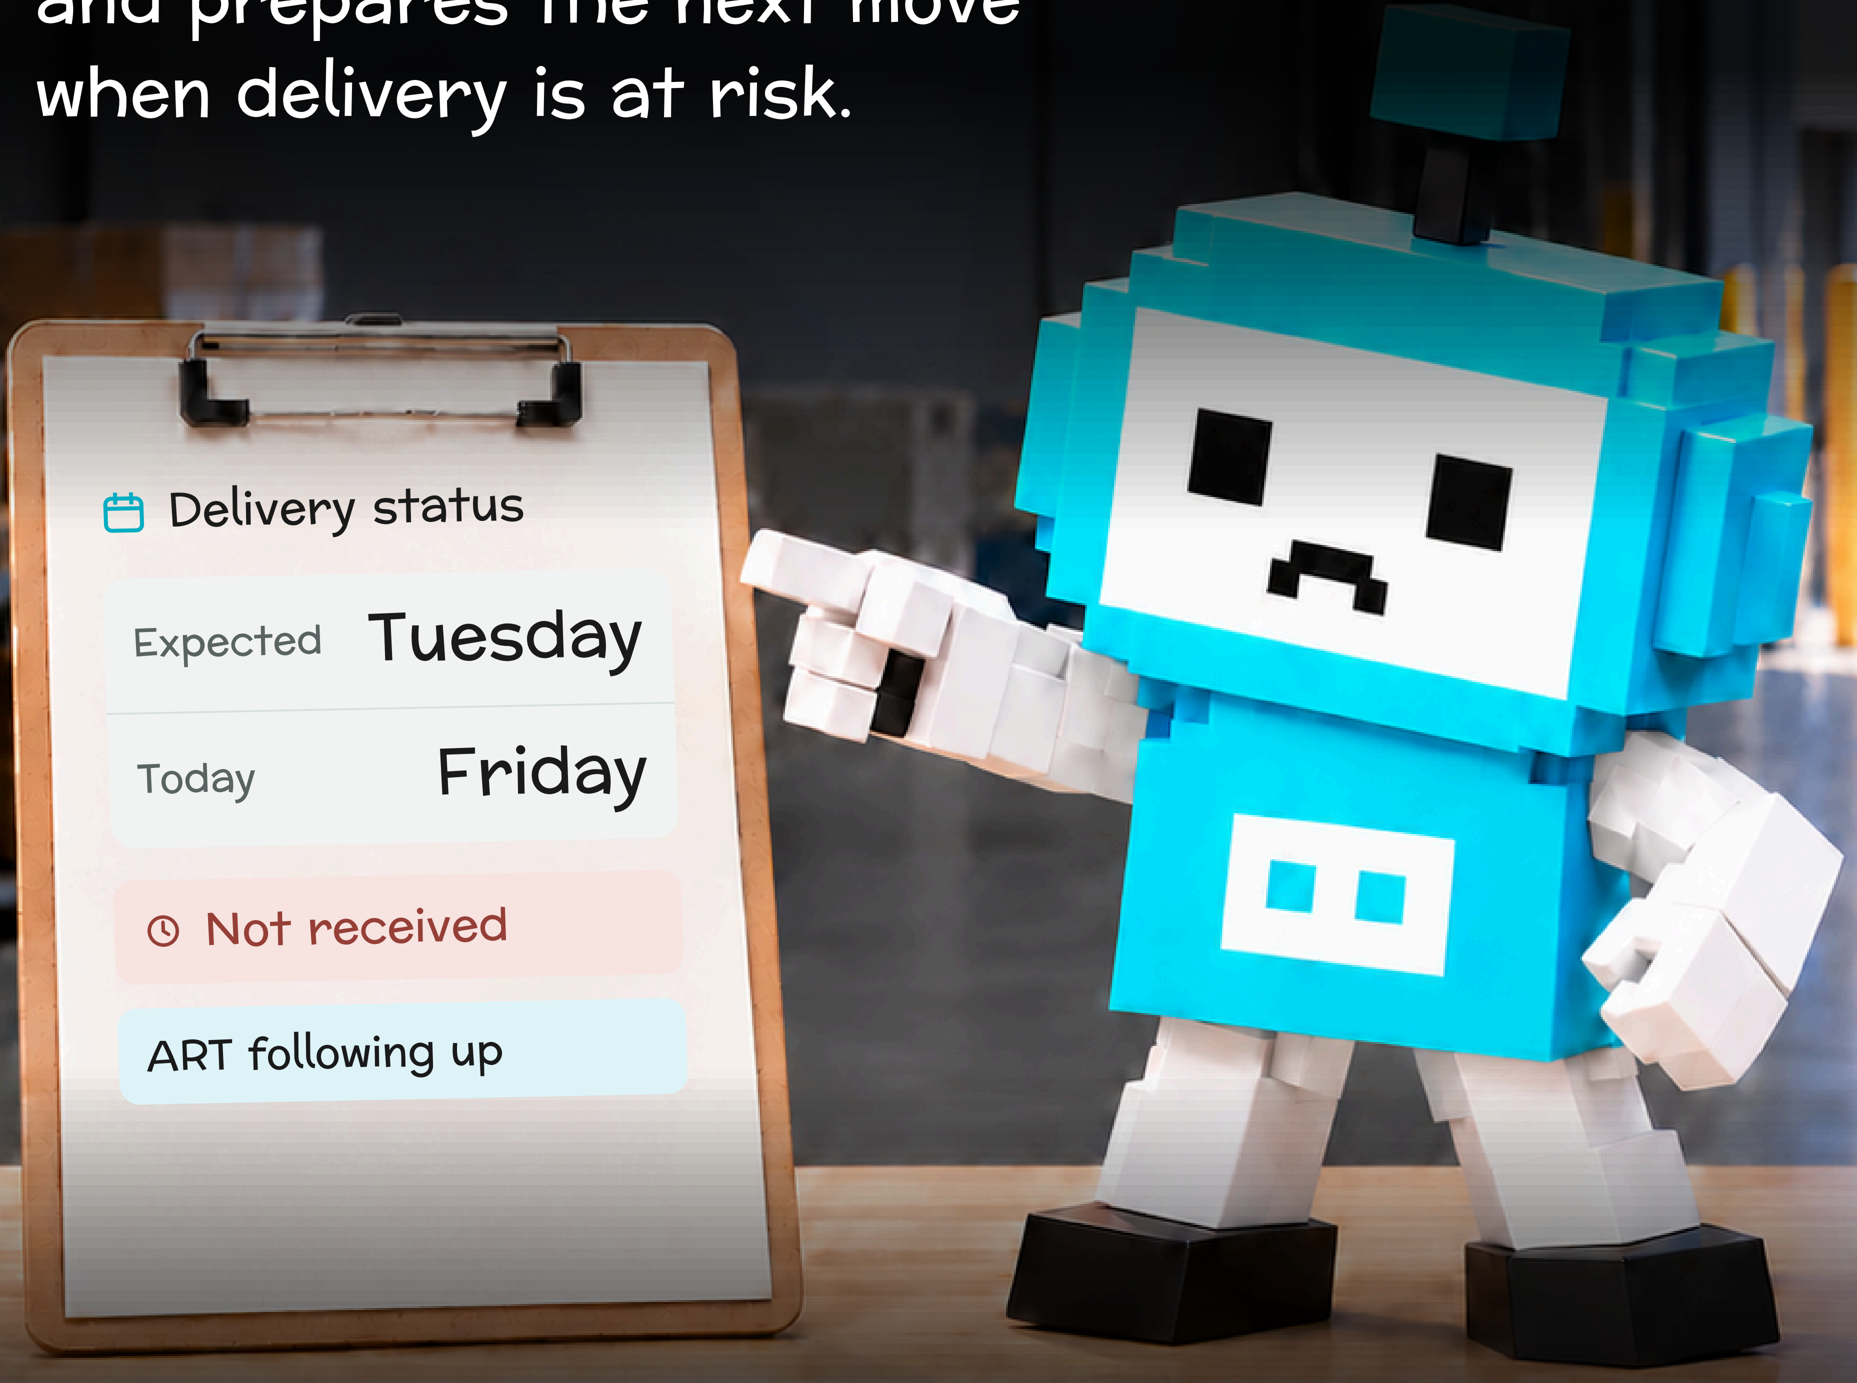
Supplier said Tuesday. ART doesn't wait for Friday.

ART (A Realtime Tech) tracks the commitment and prepares the next move when delivery is at risk.



Delivery status

Will stock last until the new delivery?

ART checks demand and incoming stock
to calculate the shortfall
and identify orders at risk.

@arealtimetech

Your supplier can't meet the need?
ART looks for who can.

It checks approved alternatives
for the required quantity,
arrival time and cost.

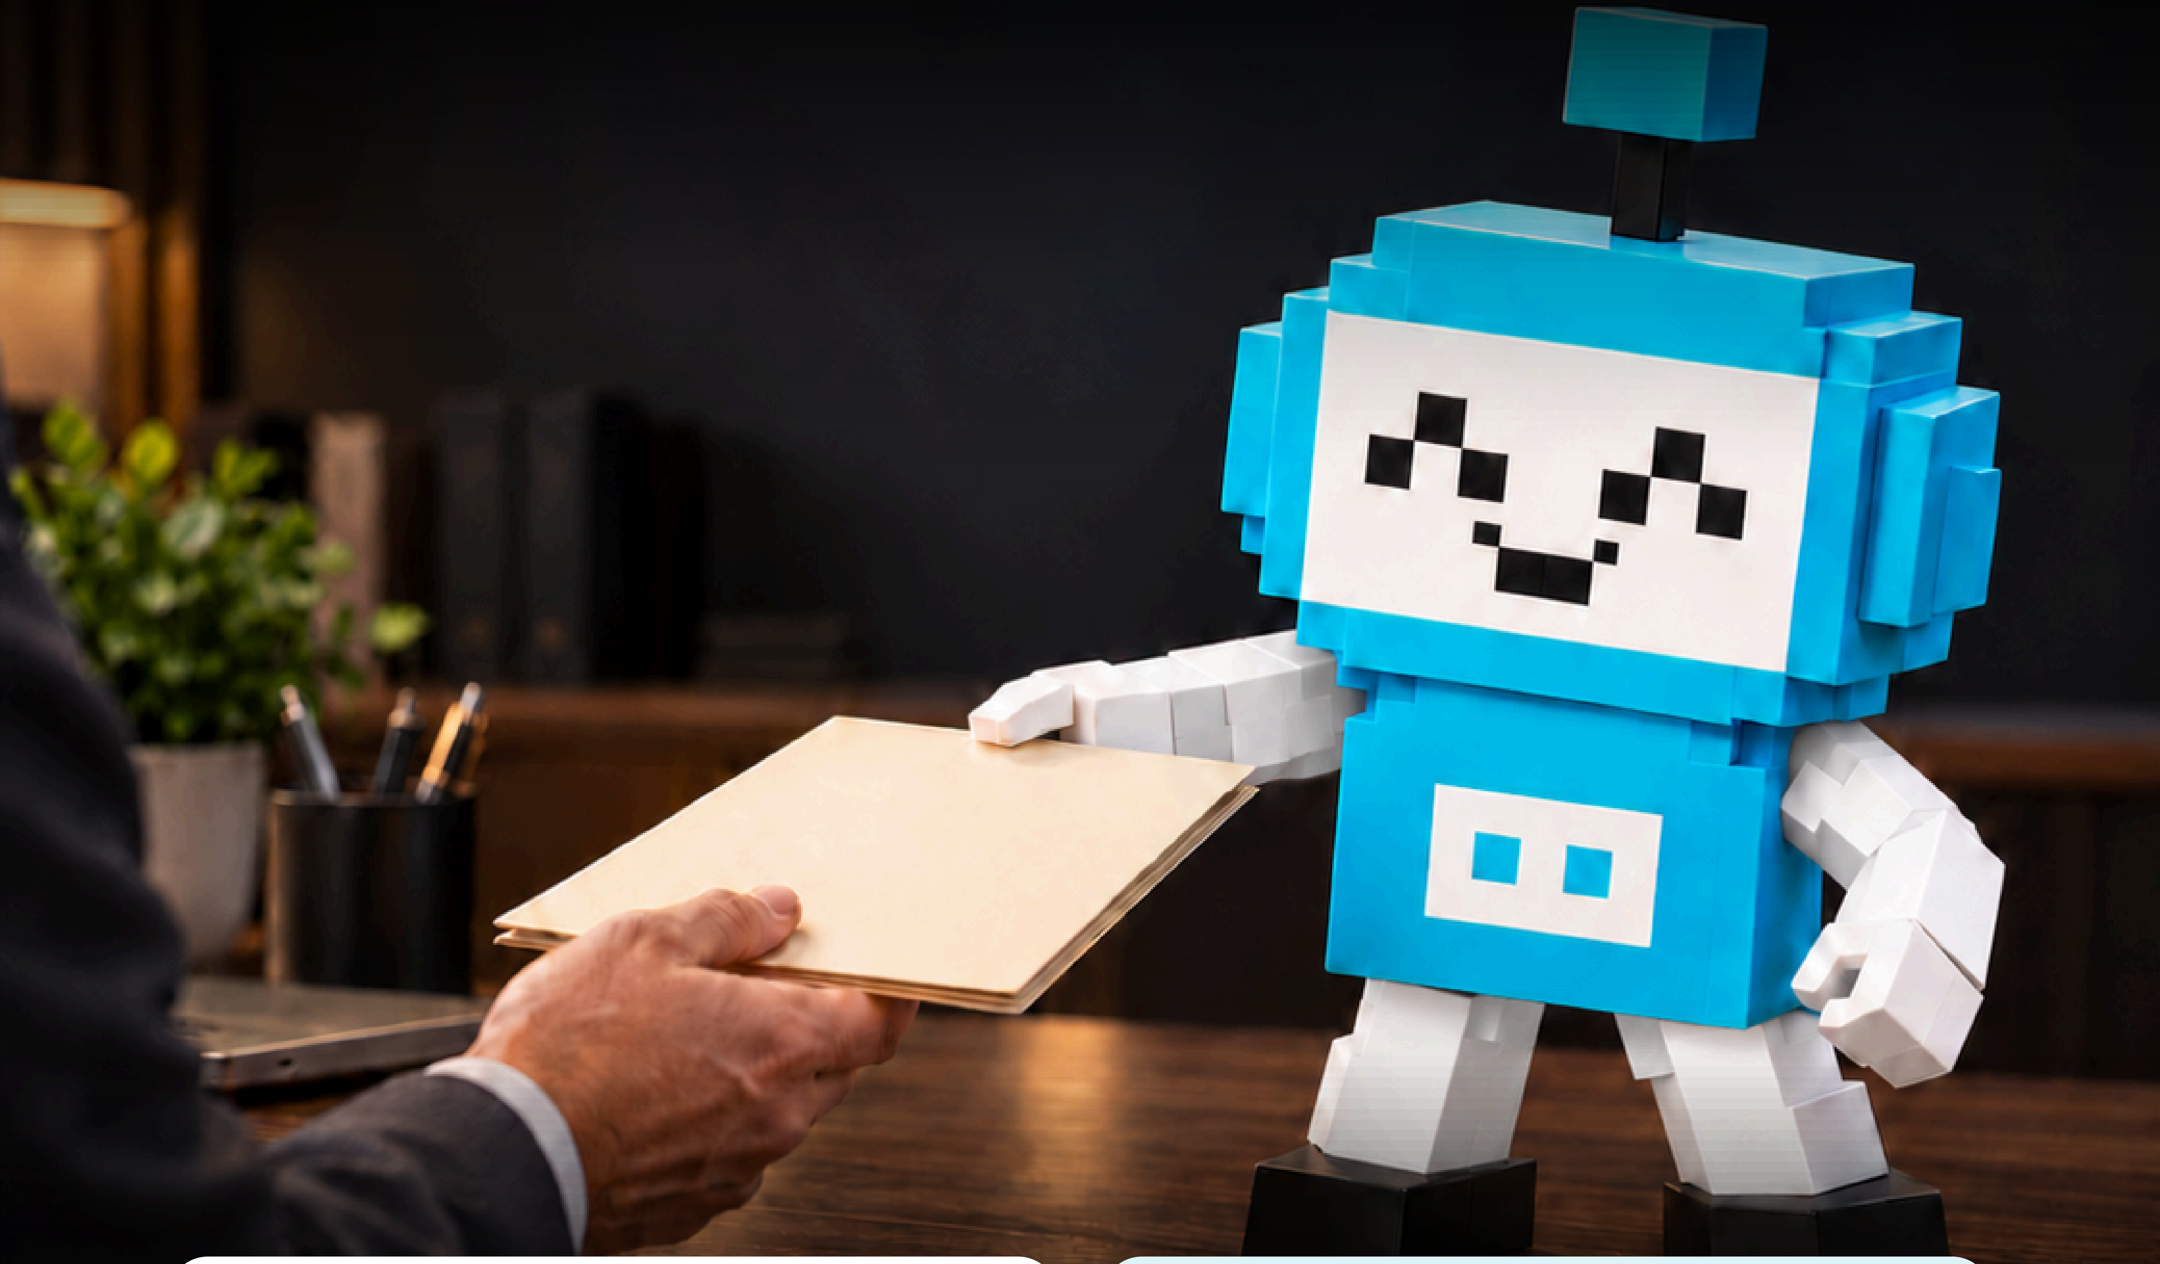
Cover what's missing. Keep control of what changes.

ART accounts for the original delivery before arranging replacement stock.



✓

Within your purchasing rules, ART proceeds.

Changes outside them come to you for approval.
